EXPLANATORY NOTE

The details included in this Directory formed part of a report on the programmes and activities of International Co-operative Training Centres (ICTCs) prepared for the 1975 Meeting of the Advisory Group for International Training of Co-operators (AGITCOOP). The information was collected through the medium of a questionnaire circulated to the institutions, and opportunity is taken here gratefully to acknowledge the assistance of all those who responded to our request.

It is hoped that this brief summary of the activities of ICTCs will be useful, particularly to Co-operative organisations in the developing countries, in helping to identify centres providing co-operative training courses at the international level. Co-operative organisations requiring further information are invited to write directly to the training centres included or to the ICA.
