INTERNATIONAL COOPERATIVE ALLIANCE

F O R E W O R D

The Calendar of Technical Assistance for Cooperatives has now been published for a number of years. Although previous issues covered the calendar year, the present one has been prepared for the period July 1978 - June 1979. This new pattern is likely to continue in the future. The part cooperatives play in the social and economic development of the Third World is increasingly recognised by the United Nations, and also by other inter-governmental and non-governmental agencies. It has been possible with the help of many organisations to collect and assemble information about the growing volume of technical assistance for cooperatives in the developing countries.

Many more projects of technical assistance to cooperatives are undertaken than could possibly be listed in the Calendar. Several cooperative organisations in developed countries provide "in-country" training courses for cooperators in the developing countries and others provide financial aid raised from voluntary contributions for international educational activities. Some of the auxiliary committees of the International Cooperative Alliance, such as the Cooperative Insurance Federation, through its Insurance Development Bureau, the International Committee of Workers' Cooperative Productive and Artisanal Societies through the Centre for the Promotion of Industrial Cooperatives in Warsaw (Poland) and the International Cooperative Housing Committee through the International Cooperative Housing Development Association (ICHDA) are providing advice and expertise on the promotion of cooperatives in the developing countries.

The International Cooperative Alliance is grateful to all those individuals and organisations which have collaborated in providing the information published in the Calendar which, we believe, makes a useful contribution towards better co-ordinated information on technical assistance projects.

Any suggestions which would add to the usefulness of the Calendar would be most welcome.
