## INTERNATIONAL COOPERATIVE ALLIANCE

### F o r e w o r d

The Calendar of Technical Assistance for Cooperatives has now been published for a number of years. During this time it has been possible with the help of many organisations to progressively collect more information about technical assistance programmes for cooperatives in the developing countries. The part cooperatives play in the social and economic development of the Third World is increasingly recognised by the United Nations, and also by other inter-governmental and non-governmental agencies.

Many more projects of technical assistance to cooperatives are undertaken than could possibly be listed in the Calendar. Several cooperative organisations in developed countries provide "in-country" training courses for cooperators in the developing countries and others provide financial aid raised from voluntary contributions for international educational activities. Some of the auxiliary committees of the International Cooperative Alliance, such as the Cooperative Insurance Federation, through its Insurance Development Bureau, the International Committee of Workers' Cooperative Productive and Artisanal Societies through the Centre for the Promotion of Industrial Cooperatives in Warsaw (Poland) and the International Cooperative Housing Committee through the International Cooperative Housing Development Association (ICHDA) are providing advice and expertise on the promotion of cooperatives in the developing countries.

The Joint Committee for the Promotion of Aid to Cooperatives (COPAC), publishes an occasional bulletin listing cooperative projects under consideration, and cooperative projects which have recently been approved. The ICA is a member of COPAC along with the ILO, FAO and three other non-governmental organisations.

The International Cooperative Alliance is grateful to all those individuals and organisations which have collaborated in providing the information published in the Calendar which, we believe, makes a useful contribution towards better coordinated information on technical assistance projects.

Any suggestions which would add to the usefulness of the Calendar would be most welcome.

S.K. SAXENA

Director.

## N O T E S

- (1) The Calendar of Technical Assistance for Cooperatives consists of two parts. Part I (pages 1 to 29) gives details of seminars and conferences scheduled for 1976. Part II (pages 30 to 69) lists new and continuing cooperative projects of technical assistance planned for 1976. Further enquiries relating to individual projects may be obtained from the sponsoring organisation.
- (2) Requiring courses at a number of cooperative institutions are marked with an asterisk.
- (3) Some of the cooperative colleges and institutions accept students for courses which are mainly designed for personnel of national movements. Enquiries about such courses should be addressed directly to the apex organisation of the national cooperative movement.
- (4) On pages 70 to 72 there is a list of those abbreviations used throughout the Calendar, which could be identified.
- (5) Additional information about cooperative projects of technical assistance will be published in the ICA "Cooperative News Service".
- (6) Copies of the Calendar are obtainable from the International Cooperative Alliance, 11 Upper Grosvenor Street, London W1X 9PA. Price £1.50 (seamail only).
