International Cooperative Alliance

.....

F o r e w o r d

.....

This is the fifth issue of the annual "Calendar of Technical Assistance for Cooperatives", which has been published by the International Cooperative Alliance since 1966, in order to serve as a fairly comprehensive source of information on various schemes of technical assistance envisaged to be made available in various parts of the world, during the current year, for the benefit of cooperatives in developing countries.

Although the Calendar lists only the schemes and projects announced to the ICA by the end of January 1970, its contents should prove a reasonably helpful guide to all aid-seeking national cooperative organisations; at the same time, donor Organisations sponsoring various technical assistance projects (or intending to do so in future) should find its information useful for planning their activities in this field more effectively, with less risk of overlap.

Thus it is hoped, the Calendar will become one of the instruments through which the ICA seeks to contribute towards greater co-ordination in the field of technical assistance for cooperatives in developing countries.

Should any recipients of this Calendar know of additional information which could usefully be included, the ICA will be grateful for receiving details of any such projects.

All relevant information reaching the ICA during 1970 will be published in the bulletin "Cooperative News Service", through which efforts will be made to keep the Calendar up-to-date throughout the year.

Further copies of this Calendar are available from the ICA, 11 Upper Grosvenor Street, LONDON, W1X 9PA price 10s. Od., including postage.

ICA 02460

N o t e s

.....

(1) The Calendar is in two parts. Part I gives details of seminars and conferences planned for 1970 in chronological order, as notified to the ICA. Part II gives details of new and continuing projects of a cooperative character which will be taking place in 1970. Details are given alphabetically by recipient countries.

(2) Details of courses at a number of Institutions are not included where these are continuing from previous years without further recruitment, or where Institutions will receive students on request for appropriate courses.

(3) It should be borne in mind that a number of countries accept students for courses in cooperative colleges and institutions where the courses are primarily designed for personnel of the national movement concerned. These courses are too numerous to list in such a Calendar and applications should be made to the national cooperative movement concerned, or the ICA, for further information.

(4) Technical Assistance by some countries takes the form of training personnel of their own cooperative movements for work in the developing countries as experts and advisers.

P a r t I

- - - - -

Cooperative seminars, training courses and other education schemes of technical assistance planned for 1970

| Dates (from - to) | Location (country, place, address) | Description (type of scheme, subject etc.) | Expected participants (number, from what countries, previous education or practice required, if any) | Sponsored by (name of organisation) | Working Language(s) | Further information available from: |

I M P O R T A N T !

1. Please help the I.C.A. to make this Calendar more comprehensive and up-to-date:

If you find that any of the seminars, courses or other technical assistance projects planned by your Organisation for cooperatives in the developing countries for 1970 have not been included in this issue, kindly send the appropriate details to the I.C.A. Headquarters in LONDON without delay for publication (as explained in the Foreword, Page 1).

2. Towards the end of 1970, please, try to remember the 10th December as the date by which the I.C.A. will need your information about seminars, courses and other technical assistance projects planned by your Organisation for 1971. This will enable us to include your information in the next issue of the Calendar, which will be published in January 1971.
3. It will greatly facilitate the editor's work and help to avoid inaccuracies, if all the details of your future projects are communicated to the I.C.A. on forms divided in the same way and under the same headings as those used in the Calendar (i.e. seminars and courses - type according to Part I, other technical assistance projects on the model of those in Part II).

4. Your enquiries on any specific projects listed in the Calendar are to be addressed directly to the Sponsoring Organisation concerned, while the I.C.A. would very much appreciate to be notified of any contacts made possible on the basis of the information published in this Calendar.

5. Any other enquiries, suggestions, recommendations or addenda concerning the Calendar are to be addressed to Dr. L. SIEBER, Secretary for Education and Technical Assistance, International Cooperative Alliance, 11 Upper Grosvenor Street, LONDON, W1X 9PA.

P a r t I I
