ICA EUROPE

NOTES ON THE STATISTICS ON EUROPEAN CO-OPERATIVES

Here are some preliminary thoughts and recommendations after our consultation meeting and a preliminary review of the data collected over the three years period.

1) My opinion on some orientation to follow in our future work :

- Too much information and too much figures will kill the relevant information and the relevant figures. Members do not expect a University thesis on European co-operatives statistics they won't read: in order to design a project based on the 3 years data we have collected, we need to identify the "most frequently asked questions" to ICA and then process the data (or eventually modify the data collection sheet) with it in mind. All ICA staff might have ideas in this respect.
- Ideally, it would be relevant to further the work of data collection on at least 5 years (1996 ⇒ 2001) in order to be able to show some general trends: co-operative development or decrease in the number of co-ops, by sector, by country; concentration process; emerging sectors; job creation. This type of information is extremely relevant especially for lobby purposes. Of course, as some organisations have stressed, standard sectoral aggregation of figures are not always fully relevant as they hide some national specificities, but if we are to show trends, there is little possibility to escape it. 5 years data collection is a minimum to identify a movement as being a real trend. 3 years (as we actually have) will just enable us to show a variation but is far too short to conclude something out of it.

2) Now let's review what we have ..

- Whichever work we'll envisaged to do will need to rely on complete, reliable and comparable data over the period. And as the following review gives an idea, it is now far from being the case. Whereas the figures collected for 1996 are rather complete¹ those for 1997 and 1998 are not (but a major part are). Based on this material it would now be impossible to undertake an statistical analysis. Two main reasons behind this : many organisations have not filled the data sheet with care and/or have just indicated the figures which were easily accessible without spending time to return a completed data sheet. In 1996 a full time staff member was ongoingly following-up the work, visiting the organisations, spending much time searching for the missing information or getting explanation on the incomprehensible ones. Martina has already spent much time running after missing replies, however this is not enough as many members still have not returned the

¹ Even though there is still a big question pending : does the "co-operative stat. profile by country" include all co-ops of the said country, or all ICA member organisations in the country.. it seems that the answer is different from a country to another. IN order to be comparable, the data sheet should at least indicate what is their scope : every co-operatives in the country, most of them, just ICA's..? We have a lot of indication in this respect in Arsenio's report for 1996. But nothing for 1997 and 1998.

sheet and even when they have, there is still a time-consuming work to be done to get exploitable and comparable information from a statistical point of view.

Armenia : data for 1996 only

Austria : good and comparable figures over 3 years show either stagnation or small development of co-operatives (agric)

Azerbaijan : 1997 and 1998 figures are in cyrillic characters..

Bosnia : only one sector indicated (agric.) show a slight increase

Belarus : only consumer sector indicated- decrease of co-operative societies, but increase of members (concentration ?)

Belgium : 1996 only

Bulgaria : 1996 and figures for 1998-1999 (??)

Croatia : 1996 only

Cyprus : comparable figures over 3 years show a decrease in all sectors (690 to 476 co-operative societies). Missing members figures do not enable comparison in this respect.

Czech Republic : slight co-operative development over the period

Denmark : only the 1996 figures are useable for comparison and trends

Estonia : data are not comparable and uncomplete

Finland : uncomplete data with several sectors missing from a year to the other: 1664 co-operative societies indicated for 1996, and only 516 for 1998.. have finnish co-ops decreased by more than 50% in three years ??

France : good and reliable data over the period show a slight co-operative development but the proposed classification is considered as inappropriate to reflect the French co-operative sectors.

Greece : so far, only 1996 available

Georgia : only consumer statistics: 50% decrease in number of employees, in market shares and turnover. Members and societies remain at same level.

Germany : good and comparable figures show a slight decrease in number members and societies. Some sector have slight development (like banking) other decrease in an ongoing way (consumers).

**ICA Europe
Statistics for 1999**

Introduction with problem of data collection/data basis

1- Sectoral breakdown of ICA member organizations, in Europe

<i>Sector</i>	<i>Number of organisations</i>	<i>%</i>
Consumer	21	28.0%
Apex or multisectoral	19	25.3%
Agriculture	11	14.7%
Housing	6	8.0%
Workers	6	8.0%
Banking	5	6.7%
Institute	3	4.0%
Insurance	3	4.0%
Credit Unions	1	1.3%
TOTAL	75	100.0%

Comments : The total number, 75, is less than total actual members (88) as the data base only takes into account those organizations which replied to the questionnaire. What we see:...

2- Total number of co-operatives societies, by sector (¹)

<i>Sector</i>	<i>Total number of co-operatives societies</i>	<i>%</i>
Apex or multisectoral	64,692	46.2%
Agriculture (and fisheries)	22,296	15.9%
Housing	19,519	13.9%
Workers (and artisans)	15,579	11.1%
Consumer	9,905	7.1%
Banking	7,003	5.0%
Credit Unions	467	0.3%
Insurance	317	0.2%
Independent retailers	145	0.1%
TOTAL	139,923	100.0%

¹ As declared by 60 member organizations (from among 75 replying ones)

Statistics for 1999

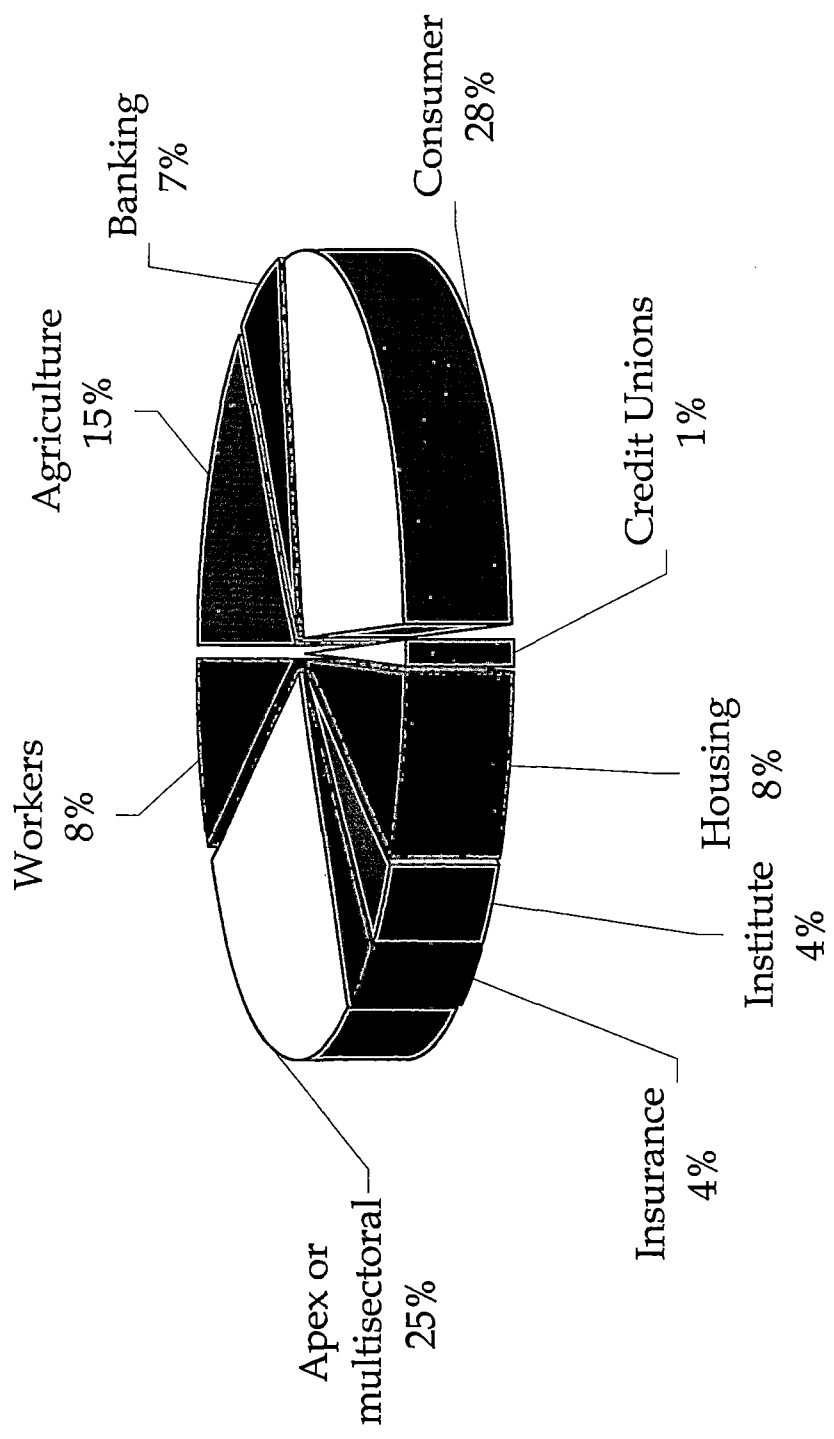

ICA members in Europe Sectoral Breakdown

<i>Sector</i>	<i>Number of organisations</i>
Consumer	21
Apex or multisectoral	19
Agriculture	11
Housing	6
Workers	6
Banking	5
Institute	3
Insurance	3
Credit Unions	1
TOTAL	75 ⁽¹⁾

Case of Apex : each time an apex body provided data with sectoral breakdown (as this was the case for (Co-operative Association of the Czech Republic, Confcooperative, GNC) the figures appears in each corresponding sector and, in the case one of their member organization also replied individually, the data are not counted. However, in most cases important (DGRV, Legacoop, AGCI, Confederacion de Cooperativas de Euskadi, Slovak Union of Co-operatives, Coop-Union) the data were aggregated, without sectoral distinction : this is why Apex bodies account for nearly half of the total number of co-operative societies. There is an improvement to bring for our future work in order to have more accurate datas

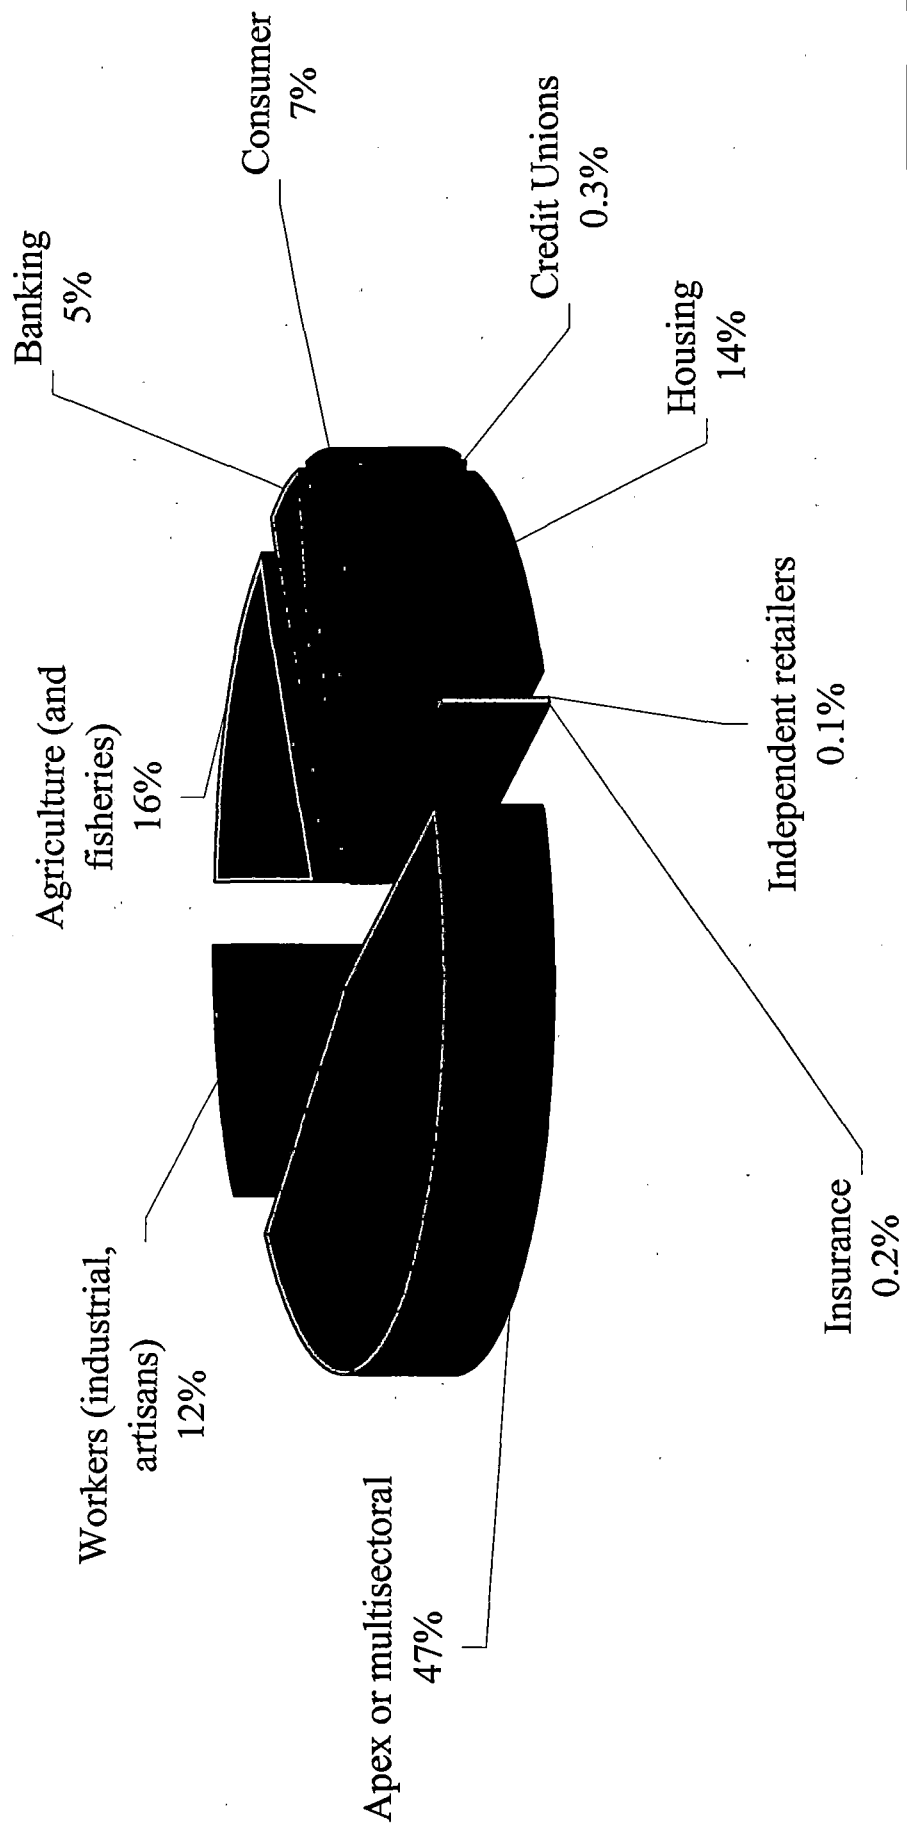

¹ The total number is less than total actual members (88) as the data base only takes into account those organizations which replied to the questionnaire

Dear Mrs Axelsson,

May I remind you of the letter, which we sent out in July 2000, and of the reminder sent on 14 February 2001, asking for the statistical data of your organisation for the year 1999 . The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

Luc Balourdet

Austria : In the absence of Mr WURM (new phone number : + ~~(43 1) 40109~~, I spoke with his secrétariat and left a message, referring to the fax sent on 14/02 and ask for an urgent reply.

Fenacoop : global figures are nearly the same, with slight differences (total number of societies 2,949/ 2,945); number of employees (50,000/ 48 750). The only real difference is with the number of members : "nearly two millions in the article/ 2,377,000 in the questionnaire). Other datas are not comparable.

Gianna : OK- she told me she will send what she has....

Konsumverband : I spoke with Wilhelm KALTENBORN on 16/03- He asked me to send again the questionnaire by fax (+ 49 30) 27584 102. I think he will reply soon. ZdK figures cover only their federation (~~West German~~).

Malta : occupé or could not get through....I sent the fax + questionnaire once again....

Norway : Jan-Eirik will meet NRD next week and promised to ask them to talk to other Norwegian organisations (I gave him copies of the questionnaire for each)

Taris : OK, questionnaire sent to Mr HUSNU along with subscription reminder.

Luc

Dear Colleague,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please **do** not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

REF: Reminder for statistics 1999

Dear Colleague,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

A handwritten signature in black ink, appearing to read 'G. Sozanski'.

REF: Reminder for statistics 1999

Dear Mr. Babenko,

Biella
461412

Handwritten notes on a lined page. The text is mostly illegible due to blurriness and faintness. Some faint words like "C" and "D" are visible. The page contains approximately 15 horizontal lines.

CO-OPERATIVE DATABASE QUESTIONNAIRE

Explanations and Definitions

I. Instructions for Classification of Co-operatives by Economic Sector

To gain an accurate statistical profile of co-operatives by economic sector in each country, we have developed the following proposed system of sectoral classification based on that which is traditionally used in European countries and by ICA Specialised Organisations (see page 2 of the questionnaire). The types of co-operative enterprise by economic sector are:

Agriculture sectors:

Agriculture
Fisheries
Forestry

Industry sectors:

Industry
Workers/Artisans

Service sectors:

Banking
Consumer
Health
Transport

Credit Unions
Housing
Social care
Public utilities

Insurance

Independent retailers

Other

Please assign each co-operative organisation or society in your country to one sector only. Classify each according to its **primary** activity or service. For example, classify a consumers' co-op which also maintains subsidiary industrial or agricultural production as **Consumers**. Likewise, a financial institution which also provides insurance services is classified as **Banking**.

Providing data on the size and scope of each of these sectors and the importance of the co-operative movement in your country's economy will lead to a clearer understanding of recent economic trends and changes affecting co-operatives. Detailed statistical information will also lead co-operatives to more effective and appropriate responses to these changes.

II. Definitions of the Co-operative Sectors

Agriculture

This sector includes all types of co-operatives related to agricultural production (crop production and animal husbandry) as well as agricultural processing, marketing, supply and service co-ops, and agricultural workers co-operatives.

Fisheries and **Forestry** co-operatives are to be specified under the general heading of Agriculture.

All European members (full and associated) of the International Co-operative Agricultural Organisation (ICAO), the International Co-operative Fisheries Organisation (ICFO) fall under this heading.

Industry

This sector includes all types of industrial co-operatives. Where possible, please specify **Workers/Artisans** co-operatives and organisations.

The full and associated European members of CICOPA and CECOP are classified under one of these two headings.

Banking

This sector includes all co-operative banks and enterprises in the credit and financial sector under the ownership or control of co-operatives of a given country.

Credit Unions

This sector includes savings and credit co-operatives and the credit unions.

All members (full and associated) of the ICBA European Banking Committee or of European Association of Co-operative Banks and European Credit Unions fall under this heading.

Insurance

This sector covers all the risk-bearing insurance (life and non-life) organisations including companies which are part of a group of insurers owned or controlled by co-operatives.

All members (full and associated) of the ICMIF/ACME are classified under this heading.

Consumers

This sector includes wholesale and retail co-operatives for food and non-food products including their subsidiary production units and other subsidiary services such as funerals, travel, etc. when they are separate units, but not autonomous co-operatives.

All members (full and associated) of the ICCO, EUROCOOP and INTERCOOP are classified under this heading.

Housing

This sector includes housing management and administration organisations as well as those with individual ownership and those involved in building and maintenance and related financing activities.

All European members (full and associated) of the ICA International Co-operative Housing Organisation and CECODHAS are to be classified under this heading.

Health

This sector includes medical co-operatives, hospitals, clinics, etc.

Social Care

This sector includes co-operative day care and co-operatives for the care of the disabled and elderly.

Health and social care co-operatives include potential members of the new ICA International Health Co-operative Organisation.

Transport

This sector includes transport co-operatives (for both people and commodities) and co-operative taxi services.

The members of TICA are also classified under this heading.

Public Utilities

This sector includes co-operative for energy, electricity and telephone and other public utilities.

The full and associated European members of the International Co-operative Energy Organisation (ICEO) are to be classified under this heading.

Independent Retailers

This sector includes co-operative buying and service groups of small independent retailers

The members of UGAL are classified under this heading.

Other

This sector should include only typical multi-purpose co-operatives and those not easily classified under one of the above sectors. Please specify type of co-operative.

EXPLANATION OF REQUESTED DATA ON CO-OPERATIVES BY SECTOR
(see page 5 of questionnaire)

Number of Co-operative Societies

Indicate the total number of enterprises including primary and secondary co-operatives, companies owned or controlled by co-operatives, consolidated co-operative groups and associations (such as in the insurance and banking sectors) and others, such as ESOPs, democratic employee-owned enterprises in membership of ICOM in UK, and SALs in Spain.

Number of Members

Indicate the total number of individual members with gender breakdown where available.

Number of Employees

This data should be calculated on the basis of full-time employees only. Convert the figures for part-time employees to their full-time equivalent on the basis of the number of half-days worked in relation to a full-time working week. Also indicate the breakdown of male and female employees.

Indicators

Provide any other economic or social indicators if already calculated or estimated at the sectoral or national level. Please identify the main statistical sources and origin for all data. Specify if data is the result of official government records, data from the co-operative movement, or estimated figures.

6/03/01.

REF: Reminder for statistics 1999

Dear Mr Bagoyan,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

Gabriella Sozanski
Regional Director for Europe

X-Attachments: G:\Database\2000-DB-QUESTION\ICA Europe\Armenia.doc;

Please forward to Mr. Rafael Bagoyan, President - Union of Consumer Societies HAYCOOP

Dear Mr. Bagoyan,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

Gabrielia Sozanski
Regional Director for Europe

Dear Mr Wurm,

You will probably remember our conversation on the phone concerning the statistical data of your organisation, which we would need to complete the ICA Annual by the end of this month. You then asked me to fax the questionnaire again, but after doing so, so far, I have not received any reply. I tried to reach you several times this week, without success. My question is the following: should we still expect some data from your organisation to include in the report, or shall we finalize it in the absence of any information on Austrian co-operative organisation?

Yours sincerely,

Luc Balourdet

REF : ICA STATISTICS

Dear Sirs,

We highly appreciate all the efforts that ICA has been making in order to update statistics and information about the cooperative movement.

Unfortunately, Cooperative Association of Bosnia and Herzegovina is not able to submit most of the requested basic data. Our country still has been suffering many consequences from the recent war.

For an example, due to great number of refugees and displaced persons, we are not able to get any reliable data on the cooperative members figure, or the gender structure in them.

After the war, there has not been determined a system of follow up the shares that cooperatives have at the market or their activities by sectors. Therefore, the data can not be quoted. We would appreciate Your understanding for our reasons.

Enclosed to this letter we send You some data that we have got from our members.

With cooperative greetings,

Miralem Behmen

President

Dear Colleague,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

Gabriella Sozanski

We have received the statistics of NUPW for 1999, and we thank you for that. There is however one question as under "total number of employees" a percentage is indicated (79.18%), without reference - as I understand - to any figure. Would it be possible to give us the figure to which apply the percentage of men (24%) and women (76%), it would be more relevant for our database and analysis ? Thank you.

Best regards

Cooperatives in Croatia, datas from December, 1999.

Table 1.

COOPERA-TIVES	TOTAL NUMBER	NUMBER OF MEMBERS	NUMBER OF EMPLOYEES	TURNOVER IN 1999.	ASSETS
agricultural ¹	344	9 585	2 674	115 494 579,30 USD	135 139 534,88 USD
banking/credit ²	160	/	/	/	/
housing ³	/	/	/	/	/
total	500	9 585	2 674	115 494 579,30	135 139 534,88

¹ Agricultural cooperatives - datas about members and employees refer on 160 cooperatives.

² Alliance of Credit unions was founded in December 1999. and datas - statistics about members, employees, deposits and assets - are still not provided. In accordance with the Law on credit unions of Croatia, this cooperative can run a business only with cooperators, and we consider that each cooperative has at least 1 000 members (it's the minimum for business profitability) and 3 employees on an average. In accordance with the Law on credit unions this society can be founded by 30 members at least, with the basic capital of 11.627,91 USD (100 000 kunas).

³ In Croatia there are about 20 housing cooperatives which run a business. Housing cooperatives will be arranged by modifications and additions of the Law on cooperatives. We expect it's gonna be enacted until the end of the current year.

The Law which is still preparing should comprchend the whole cooperative movement. It's also anticipates Croatian Cooperative Alliance to be an association of all cooperative organizations. Membership should be obliged. After the law will be enacted, well the next year, we will have complete and exact datas and we will create statistic databank in pursuance of the ICA methodology.

Dear Sir,

We have received your reply to the questionnaire for the statistics of 1999 and we thank you for that. We have however an additional question :- You indicate that there are 360 co-operative credit societies, of which 348 are members of the Co-operative Central bank. We would like to know, if possible :

- the total number of individual members of these 360 credit co-ops and their total number of employees (if you have the figure only for the 348, it will be OK as well) as we understood the figure of 178 employees to be imputed to the Central Co-operative Bank only..is it correct ?

Thank you for your help

Best regards

Luc Balourdet

REF: Reminder for statistics 1999

Dear Mr. Atasayan,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

Gabriella Sozanski
Regional Director for Europe

Dear Sirs,

In reply to the questionnaire on statistics of ICA Europe, your organisation sent two leaflets which indeed contain facts and figures, but regretfully, not the one we need to finalize our statistical report for 1999. We would then be very grateful if you could provide us with the following data for 1999 :

- Total number of co-operative societies affiliated to the 4 Unions in membership with your Association (in that respect, the only figure we have found in the leaflet is for agricultural co-ops)
- total number of individual members (if possible with the men/women breakdown)
- total number of employees (if possible with the men/women breakdown)
- Market share by sector
- turnover and assets by for each sector, in national currency

Thank you for your kind help

Best regards

Luc Balourdet

Dear Mr. Balourdet,

In reply to your e-mail message to Mr. Brožek and Mr. Příklad concerning 1999 statistics enclosed please find a table containing all data monitored by our member unions.

Market share by sector:
housing co-operatives 20%
consumer co-operatives totally 5,25% of retail trade excluding motor vehicles.

Unfortunately no other data are monitored.

Regards

REF: Reminder for statistics 1999

Dear Ms. Jorgensen,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

A handwritten signature in cursive script, appearing to read 'G. Sozanski'.

Dear Sir,

We have received your reply to the questionnaire on 1999 statistics and we thank you for that. There is however an additional question : under total number of members, you indicate 25, which is also the figure for total number of societies member of your Federation. We understand this 25 as 25 societies member of Federation of Danish Cooperatives, but we would like to know, if available, the total number of individual co-operators in membership with those 25 societies. Thank you for your kind help.

Best regards

Luc Balourdet

RE Your request

TEXT

I send you the most complete information we have on the Finnish cooperatives in table form. Unfortunately we haven't gathered global data on gender nor on all the economic figures you asked for (e.g. from the balance sheets).

Table 1 shows the data on all the traditional cooperatives.

Table 2 shows the data on the cooperative groups within our organisation (Pellervo). These figures are also included in table 1.

Table 3 shows the new wave cooperatives – small recently formed cooperatives – not included in tables 1 or 2. We have no member nor economic data on these.

There are almost 3000 cooperatives in Finland, which means that these data only concern about half of the Finnish cooperatives all in all. However, in economic perspective as for the number of members the cooperatives in **Table 1** represent 99% of the whole Finnish cooperation.

Regards

Per-Erik Lindström

ACI Statistiques

Monsieur,

Nous avons pris connaissance de votre correspondance du 27 juillet dernier concernant le questionnaire 2000 ICA DATABANK.

Nous vous adressons ci-joint la mise à jour de la fiche institutionnelle.

Pour ce qui est des chiffres-clés des organisations coopératives françaises (année 1997-1998), je vous invite très vivement à vous rapprocher de Madame Sozanski (qui fait d'ailleurs partie de votre groupe de suivi) qui dispose du dossier statistiques du G.N.C., transmis le 20 septembre 1999 à Monsieur Hillböm, président de l'ACI Europe.

A toutes fins utiles, je vous remets les deux tableaux récapitulatifs de l'année 1998 et le rapport du CSC déjà en votre possession.

Je vous prie d'agréer, Monsieur, l'expression de mes sentiments les meilleurs.

Michèle TIXADOR-LEBRUN
Secrétaire Générale

P.J. : 3

CHAPITRE 1 : L'ETAT DES LIEUX AU CREDIT MUTUEL

1. Les salariées du Crédit Mutuel : évolutions lentes et écarts significatifs

1.1 La place des femmes dans les effectifs : une parité qui masque des situations catégorielles contrastées*

Part des femmes dans l'effectif total	1982	1989	1998
Effectif Hommes au 31/12	63,7%	56,7%	54,6%
Effectif Femmes au 31/12	36,3%	43,3%	45,4%
Effectif total au 31/12	100,0%	100,0%	100,0%

Structure de l'effectif Hommes et Femmes par catégorie	Effectif Femmes			Effectif Hommes		
	1990	1998	Ecart	1990	1998	Ecart
Cadres	7,8%	11,9%	4,1%	39,3%	46,4%	7,1%
Gradés	29,4%	49,6%	20,3%	32,3%	34,2%	1,9%
Employés	62,8%	38,5%	-24,4%	28,4%	19,4%	-9,0%
Total	100%	100%		100%	100%	

Part des Femmes dans l'effectif total par catégorie	1990	1998	Ecart
Cadres	25,4%	30,8%	5,3%
Femmes	3,4%	5,4%	2,0%
Hommes	22,0%	25,4%	3,4%
Gradés	31,0%	41,2%	10,2%
Femmes	12,9%	22,5%	9,6%
Hommes	18,0%	18,7%	0,6%
Employés	43,6%	28,0%	-15,5%
Femmes	27,7%	17,5%	-10,2%
Hommes	15,9%	10,6%	-5,3%
Total	100,0%	100,0%	
Femmes	44,1%	45,4%	1,3%
Hommes	55,9%	54,6%	-1,3%

Part des femmes dans chaque catégorie	1990	1998
Cadres	100%	100%
Femmes	14%	18%
Hommes	86%	82%
Gradés	100%	100%
Femmes	42%	55%
Hommes	58%	45%
Employés	100%	100%
Femmes	64%	62%
Hommes	36%	38%

* L'effectif considéré est celui de toutes les Fédérations - Données Année Sociale

Une parité stable depuis 10 ans

La place des femmes dans l'effectif total des Fédérations n'évolue quasiment plus depuis le milieu des années 80. On constate, en effet, que de 43.3 % de l'effectif total des Fédérations, en 1989, elles passent à 45.4 % en 1998. Cependant, leur progression dans les effectifs, s'est, pour l'essentiel, réalisée durant les années 80, puisque c'est durant cette décennie, qu'elles passeront d'1/3 de l'effectif à quasiment la moitié.

Cela dit, pour l'essentiel des Fédérations, 45% à 55% des salariés sont aujourd'hui des femmes, soit une quasi-parité des effectifs hommes / femmes.

• Le difficile cheminement des femmes cadres

Si les femmes constituent près de la moitié du personnel des Fédérations, leur place dans les différentes catégories, et notamment au sein de l'encadrement, n'est pas à l'image de cette parité.

En 1990, les femmes cadres ne représentent que 3.4 % de l'effectif total. Plus de 10 ans après, en 1998, elles sont 5.4%, parmi l'ensemble du personnel, à être titulaires de ce statut. Au regard de leur place dans l'effectif, cette proportion reste donc encore très faible, malgré une légère progression. Par ailleurs, quand on examine la façon dont les femmes se répartissent entre les catégories, le même constat peut être fait : en 1990, sur 100 femmes, salariées du Crédit Mutuel, seules 8 sont cadres, elles seront 12 en 1998. Enfin, au regard de la composition des populations par catégorie, cette même photographie s'impose : en 1990, sur 100 cadres, 13 sont des femmes ; en 1998, elles sont 17.

Visiblement, à la fin des années 80, une tendance réelle à l'accès des femmes aux postes d'encadrement est enclenchée. Ensuite, tout se passe comme si la crise, qui va secouer le marché de l'emploi à partir de 1991, freine cette progression : le ralentissement des flux de recrutements, dans bon nombre de Fédérations, ainsi qu'un marché externe favorable aux employeurs, vont probablement pénaliser les femmes, dans leur accès aux postes d'encadrement. De plus, il est à noter que c'est à cette époque, pour la première fois depuis le premier choc pétrolier, que les cadres deviennent, au même titre que les autres catégories de salariés, exposés aux licenciements et aux plans sociaux. Le marché de l'emploi cadre est alors sous tension, mettant les femmes cadres en difficulté maximale.

• La parité des femmes gradées

La proportion des femmes gradées connaît, quant à elle, une évolution significative, puisqu'elles constituent 22% de l'effectif total en 1998, contre 13% en 1990. De même, sur

100 femmes salariées du Crédit Mutuel, 29 sont gradées en 90, elles seront 50 en 1998. Leur proportion au sein de la catégorie tend même désormais à les rendre majoritaires, puisque de 42% de la population totale des gradés en 1990, elles représentent maintenant 55% de celle-ci.

Cette situation, qui tranche singulièrement avec celle de leurs homologues cadres, fait des femmes gradées, les gagnantes de la parité, au moins du point de vue des effectifs. Finalement, les femmes gradées ont suivi d'assez près l'évolution de leur catégorie professionnelle, qui a vu son poids dans les effectifs, connaître une progression significative, lors de ces 10 dernières années.

• **Ces femmes qui « peuplent » encore massivement le statut employé.**

La situation des femmes employées est probablement plus contrastée, que celle des gradées et des cadres, selon les ratios que l'on utilise.

La situation paraît idyllique quand on regarde la répartition de la population féminine : 63% des femmes sont employées en 1990, elles ne sont plus que 38 % en 1998. Au regard de l'effectif total, le constat semble encore positif : les femmes employées constituent 28% de l'effectif total en 1990, et « seulement » 17 % en 1998. En clair, le constat paraît, à première vue réjouissant : la proportion des femmes employées est en baisse réelle et continue depuis le milieu des années 80.

Cependant, à l'examen de la répartition des femmes dans chacune des catégories, la nuance s'impose : en 1998, sur 100 employés, 62 sont des femmes, alors qu'elles étaient 64 en 90. Autant dire que même si les femmes accompagnent naturellement les évolutions structurelles de la population salariée du Crédit Mutuel (diminution de la part des employés, au bénéfice principalement des gradés), elles continuent, non seulement à être majoritaires parmi les employés, mais de plus, on ne constate pas de baisse réellement significative de cette proportion.

*1.2 Les salaires moyens : des inégalités, oui mais *...*

Attention, cette analyse des rémunérations est globale. Pour en affiner les résultats, il conviendrait de compléter ce travail par une analyse des rémunérations hommes et femmes par métiers.

L'examen de la situation des femmes dans les effectifs du Crédit Mutuel fait apparaître une situation contrastée, mélange de parité et d'inégalités catégorielles.

* L'effectif considéré est celui de toutes les Fédérations en 1994 et 1998 - Données Année Sociale

Afin d'avoir une représentation, la plus complète possible, de la situation des femmes du Crédit Mutuel, il est nécessaire d'avoir une visibilité sur la situation salariale.

1994	CADRES		GRADES		EMPLOYES		TOTAL	
	Hommes	Femmes	Hommes	Femmes	Hommes	Femmes	Hommes	Femmes
Salaire moyen annuel	259 617	212 301	154 793	145 294	119 954	118 714	200 430	144 536
Ecart	-18%		-6%		-1%		-28%	

1998	CADRES		GRADES		EMPLOYES		TOTAL	
	Hommes	Femmes	Hommes	Femmes	Hommes	Femmes	Hommes	Femmes
Salaire moyen annuel	272 468	222 315	164 635	154 855	124 853	128 871	211 995	157 033
Ecart	-18%		-6%		3%		-26%	

• **Un différentiel de salaire moyen qui n'est pas une illusion...**

Nota Bene : la comparaison porte sur les chiffres 1994 et 1998 du fait que le mode de calcul des rémunérations moyennes est homogène et pertinent pour ces deux années.

On ne peut pas le nier, au regard des chiffres présentés, l'écart de salaire moyen hommes / femmes au Crédit Mutuel, correspond à une réalité tangible. Les comparatifs de salaire font en effet apparaître un différentiel de salaire moyen de 28% en 94, et de 26% en 98.

L'examen de ces mêmes chiffres par catégorie démontre, quant à lui, des disparités significatives. En 94, il n'existe, pour ainsi dire, pas de différence en ce qui concerne les employés (seulement 1% d'écart), un différentiel faible pour les gradés (6%), alors que les hommes cadres, eux, perçoivent un salaire annuel moyen supérieur de 18% à leurs collègues femmes.

Cela dit, la présentation de ces chiffres bruts ne suffit pas pour rendre compte, en toute objectivité de cette question de la parité salariale. En effet, encore faut-il savoir quelles structures de populations s'abritent derrière ces chiffres.

• **Des explications.....qui n'expliquent pas tout !**

Il s'agit maintenant d'analyser ces chiffres bruts afin d'en comprendre les écarts.

↳ A quand un retournement de la tendance chez les cadres ?

L'écart le plus criant, comme nous l'avons constaté, concerne cette catégorie. Plusieurs hypothèses pour expliquer cet écart peuvent être avancées.

le faible poids des femmes dans la structure de l'effectif : comme on l'a constaté, dans l'analyse concernant les effectifs, les femmes sont faiblement représentées dans la catégorie cadre, minorant par-là leur poids dans la rémunération moyenne de cette population.

- l'âge : les femmes cadres sont légèrement plus jeunes que leurs collègues masculins. En 1998, elles étaient en moyenne âgées de 40 ans, pour 43 ans du côté des hommes.
- La nature des emplois tenus : les femmes cadres au Crédit Mutuel ont encore très peu investi les fonctions de management. Elles sont plus souvent, à l'image de ce qui se passe dans beaucoup d'autres entreprises, affectées à des emplois de spécialiste ou d'expert dans des secteurs fonctionnels (juridique, marketing, contrôle de gestion...). Leur proportion dans les emplois de Directeurs de Caisse notamment semble faible alors que ce sont des fonctions valorisées d'un point de vue salarial, et qui peuvent offrir des perspectives d'évolution certaines au Crédit Mutuel.
- Une faible proportion dans les plus hauts salaires : en 1998, dans la tranche de rémunération la plus élevée (+ de 250 KF), on trouve 13% d'hommes pour 1% de femmes.
- Le mode d'accès au statut cadre : sans doute, les femmes ont davantage que leur homologues masculins, accédé au statut cadre, par le biais du recrutement extérieur, et grâce à un niveau de formation élevé. Pour les hommes, la promotion interne a joué un plus grand rôle, augmentant alors d'autant leur salaire, par le poids de l'ancienneté.

On peut, en tout cas, espérer que la féminisation des recrutements commerciaux du réseau favorisera une similitude de trajectoire entre hommes et femmes, et que les écarts constatés s'amoiendront à l'avenir.

↳ Une situation qui s'équilibre chez les gradés

Si les femmes sont largement minoritaires dans les postes d'encadrement, on ne doit pas pouvoir en dire autant pour les gradés, catégorie fidèle, depuis quelques années, à la parité.

Cependant, les hypothèses manquent pour tenter d'expliquer le différentiel salarial de 6%.

En effet, au regard de la structure d'âge et d'ancienneté de la population, aucune différence majeure ne saute aux yeux : l'ancienneté moyenne est de 14 ans chez les hommes comme chez les femmes et l'âge moyen est de 38 ans des deux côtés.

REF: Reminder for statistics 1999

Dear Mr. Bak,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

Gabriella Sozanski
Regional Director for Europe

Daten Gesamtverband Deutscher Konsumgenossenschaften - GDK
Stand: 01.01.2000

1. Mitgliedsunternehmen: 119

darunter

vom Konsumverband, Berlin: 23

Dazu gehören 21 ostdeutsche Konsumgenossenschaften, die im Food-Bereich, Non-food Bereich, Food- und Non-food Bereich und/oder in der Vermögensverwaltung tätig sind. Unter ihnen die 150 Jahre alte und damit älteste Konsumgenossenschaft Deutschlands - Konsum Sachsen-Nord, Sitz Eilenburg - .

Der Konsumverband betreibt darüber hinaus selbst operatives Geschäft. Ihm gehören 3 Industrieunternehmen (Röstfein GmbH Magdeburg, Erfurter Teigwaren GmbH, Bürstenmann GmbH Stützengrün), 2 Hotels (Berghotel Oberhof, Dorotheenhof Weimar GmbH) und eine große Gewerbeimmobilie in Chemnitz (Neue Kauffahrt).

vom Zentralverband deutscher Konsumgenossenschaften ZdK, Hamburg: 96

Der ZdK ist im Unterschied zum Konsumverband Prüfungsverband. Unter den Mitgliedern befinden sich 30 Konsumgenossenschaften, 17 Dienstleistungsgenossenschaften, 7 Produktionsgenossenschaften (z.Bsp. die taz), 5 Schulen (z.Bsp. Waldorfschulen), 14 Genossenschaften in Auflösung und 23 Tochtergesellschaften und genossenschaftliche Unternehmen.

Die größte Konsumgenossenschaft ist die co op Schleswig-Holstein (2,4 Milliarden Mark Umsatz).

2. Umsatz (Konsumgenossenschaften): 4,2 Milliarden Mark

Konsumverband Berlin: 1,3 Milliarden Mark
ZdK Hamburg: 2,9 Milliarden Mark

3. Einzelmitglieder: 880.000

Konsumverband Berlin: 820.000
ZdK Hamburg: 60.000

4. Anzahl der Läden:

1.299

Konsumverband Berlin: 935

ZdK Hamburg: 364

5. Anzahl der Mitarbeiter:

17.300 (darunter ca. 1.300 Auszubildende)

Konsumverband Berlin: 6.300

ZdK Hamburg: 11.000

6. Verkaufsraumfläche:

633.000 m²

Konsumverband Berlin: 209.000 m²

ZdK Hamburg: 424.000 m²

Message to Mr Luc Balourdet

Dear Mr Balourdet,

PASEGES has recently collected statistics about the membership in agricultural cooperatives. According to these statistics the number of primary agricultural cooperatives is 6,289 with a membership in physical persons 785,474. As no other source for such information exists, these figures should replace those provided in the past by our Institute.
Best regards,

C.L. Papageorgiou
Institute of Cooperation
Greece

↪ So no double counting
these figures are for 1999
and the other in 1998
in 2000 & 2001.

Dear sir,

We have received your message informing us that , due to the impossibility to collect updated figures, we should use the statistical datas provided in 1998 for 1999. These data were very complete and we have a question in that respect : do the figures provided for the agricultural sector include or not the co-operatives societies and members affiliated to PASEGES (as Pasesges has also replied, we want to avoid dubble counting ? Thank you for your collaboration.

Kind regards

Luc Balourdet

Désolé de vous assaillir de mail, mais pour votre information, les nécessités commandent.: L'institute of Co-operation de Grèce n'a pas fourni de données 1999, et demande de ré-utiliser celles "of last year" (1998). Comme cette année n'a pas été saisi, je prends la liberté de le faire.

ATTENTION MS GABRIELLA SOZANSKI
Director, ICA Europe

Athens, 21 November 2000

Dear Ms Sozanski,

With reference to the ICA Databank Questionnaire 2000, please accept my apologies for having not replied within the set period. I had hoped that I might have some new and reliable information either from the tax authorities or from a specific project pertaining to social economy institutions.

The tax authorities were kind enough to provide a list of registered cooperatives but they cannot disclose information other than field of activity. We shall have to work on organising this material even for this limited information. We plan to return to them and ask for group data on turnover

The project on social economy has not produced conclusive data that might be subject to classification and further elaboration.

As no single source is in charge for collecting and distributing information on cooperatives, I am afraid that we cannot provide at this stage the information requested. Until further notice, the information of last year should be used with a footnote for the year of reference.

Our Institute will elaborate the data of the tax authorities and will again advise the Ministry of Agriculture for making arrangements for the collection of statistical data on agricultural cooperatives, the largest group in this country. In case we will possess more recent information, we will certainly advise you.

Yours sincerely

C.L. Papageorgiou
President
Institute of Cooperation

REF: Reminder for statistics 1999

Dear Colleague,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

G. Sozanski

>Dear Ms Sozanski,

>

>With reference to the ICA Databank Questionnaire 2000, please accept my
>apologies for having not replied within the set period. I had hoped that I
>might have some new and reliable information either from the tax
>authorities or from a specific project pertaining to social economy
>institutions.

> The tax authorities were kind enough to provide a list of registered
>cooperatives but they cannot disclose information other than field of
>activity. We shall have to work on organising this material even for this
>limited information. We plan to return to them and ask for group data on
>turnover.

> The project on social economy has not produced conclusive data that
>might

>be subject to classification and further elaboration.

> As no single source is in charge of collecting and distributing
>information on cooperatives, I am afraid that we cannot provide at this
>stage the information requested. Until further notice, the information of
>last year should be used with a footnote for the year of reference.

> Our Institute will elaborate the data of the tax authorities and will
>again advise the Ministry of Agriculture for making arrangements for the
>collection of statistical data on agricultural cooperatives, the largest
>group in this country. In case we will possess more recent information we
>will certainly advise you.

Direzione Amministrativa

Rome, 21 March 2001
Prot. 721 /01/ST/mcp

Dear Ms. Sozanski,

I take this occasion to send you the ICA Databank-Questionnaire. The mentioned data are after-VAT data. As far as the market share of the different co-operative sectors is concerned it's difficult to have this figure except for the Consumer Co-operatives and for UNIPOL Insurance Company. With reference to the assets of the co-operatives we do not use these data for our statistics purposes and consequently our Study and Research Dept. has not in its files the data required by you, we can simply make projections involving a percentage of member societies, but the information we have are not enough to provide you with national sectorial data.

I do hope that, in any case, the information provided will be useful for your purpose.

Yours sincerely,

Mario Martucci,
Managing Director.

	Assets:

Comments:

The above mentioned data are after-VAT data. The market share of the different co-operative sectors is not available (except for those mentioned). With reference to the assets of co-operatives we usually do not use these data for our purposes and consequently, at present, we have such figures in our files only for a small percentage of our members, which is not enough to provide a general figure for the entire sectors you quoted.

REF: Reminder for statistics 1999

Dear Mr. Strautinsh,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

Gabriella Sozanski
Regional Director for Europe

ICA - A - LFESE
APEX ↓ COOP ORG

We have received your reply to the ICA Europe questionnaire on statistics and we thank you for that. If possible, we would welcome receiving more information on the sectoral breakdown of figures :

- On the one hand, you have indicated the turnover figures for various sectors (agriculture, consumer, fisheries, tourism etc...). On the other hand, you have given the requested aggregate figure for the total number of societies (47), of members (4890 men, 501 women) and employees (186 men; 16 woman). It would be very helpful for us to have, for these figures as well, a break down by sector..would it be possible ?

Thankyou for your kind help.

Best regards

Luc Balourdet

Comments: In the Netherlands over 5,000 cooperatives are registered. Every year NCR presents an overview of the largest agribusiness cooperatives in the Netherlands. These data however, do not cover all of the mentioned cooperatives, members and employees. Turnover therefore reflects turnover of the cooperatives in our overview (see attachment), the same goes for the assets. In the Netherlands most cooperatives in agriculture are specialised. This means that farmers often are members of more than one cooperative; therefore the total number of members includes a number of farmers who are counted more than one time.

REF: Reminder for statistics 1999

Dear Mr. Hofstad,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

G. Sozanski

REF: Reminder for ICA Statistics
To ICA member organisations in Europe

Dear Colleague,

May I remind you of the letter, which we sent out to you 27 July 2000, asking for the statistical data from ICA member organisations, for the year 1999.

The deadline was 30 September. In order to be able to compare and analyse the general development trends we kindly ask you to provide us with the requested data. The quicker we receive information from you the sooner we can make the final outcome available to you.

We look forward to receiving your data as soon as possible.

With co-operative greetings,

Gabriella Sozanski
Regional Director for Europe

NBAL

Dear Sir,

We have received your reply to the ICA Europe questionnaire on statistics. We thank you for that and would welcome some more explanations.

Concerning market shares, we understand that the 14% members of your co-operative housing association is based on the total population of members of co-os housing organisations in Norway. Is it correct ?

Concerning the total figure of dwellings (250.000) we would appreciate receiving the breakdown between dwellings managed and dwellings built. Is it possible ?

Thank you for your collaboration,

Best regards,

Luc Balourdet

Dear Gabriella,

Please find enclosed some statistical data on Polish co-op movement. That is all I could find both in National Statistical Office Yearbook and NCC's register of co-operatives.

Sorry for the delay.
Best regards
Adam Piechowski

PS. Hope you will have soon information from NAUWC.

REF: Reminder for statistics 1999

Dear Mr. Jankowski,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

Gabriella Sozanski
Regional Director for Europe

Statistical data:

Total number of societies: 16,712 (in NCC register), 19,822 according to the Central Statistical Office

Total number of members: estimated 8 millions
men/women ?

Total number of employees: 506,600
men/women ?

Market share:	2.5%	total co-operative production
	1.4%	total co-operative share in GDP
	8.0%	total co-operative share in fixed assets
	2.8%	sector: industrial
	0.4%	sector: housing (new constructions)
	0.5%	sector: transport

Sectors:

Statistical data year 1999

Currency name: Polish Zloty (PLN)

1USD = 4.148 PLN

All sectors mentioned exist in Poland but data available only for:

Housing: total dwelling managed - 3.351.000 / constructed – 27 500

Workers/Artisanal/Industrial – total turnover 10.899,5 millions PLN

In addition I enclose number of societies in different sectors according to NCC register:

Consumer co-ops ("Spolem")	448	(46 in the state of liquidation)
Agriculture supplying/marketing co-ops	2121	(315 ")
Folk handicrafts co-ops	93	(41 ")
Workers' (industrial and service) co-ops	2598	(931 ")
Diary co-ops	369	(95 ")
Horticulture co-ops	223	(74 ")
Agriculture productive co-ops	1766	(547 ")
Farmers' circles co-ops (services for farmers)	1553	(336 ")

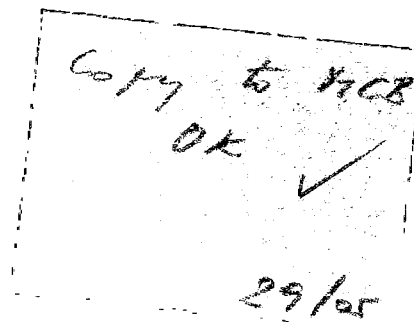

Disabled workers' co-ops	435	(74 in the state of liquidation)	
Blind workers' co-ops	36	(2	")
Co-operative Banks	1382	(141	")
Housing co-ops	4801	(666	")
Construction co-ops	140	(71	")
Artisans' co-ops	474	(139	")
Credit Unions	90	(3	")
Other	94	(26	")

workers

ICA DATABANK – figures for 31. 12. 1999 of National Auditing Union of Workers' Co-operatives

Main ICA contact: Mr. Jakub JANIAK, President of the Board
Other contacts: CICOPA – Mr. Jakub JANIAK, President of the Board
ICA Global Women's Committee – Ms. Barbara BOCHEN

Statistical data:

Total number of societies: 511 (in NAUWC register), among them 29 in the state of liquidation
Total number of members: 67,000
men/women ?
Total number of employees: 86,000
men/women ?
Market share: 0.8% of total industrial production

Sectors:

Statistical data year 1999
Currency name: Polish Zloty (PLN)
1USD = 4.148 PLN

Workers/Service/Industrial – total turnover 3,418,571,985 PLN

NB. The co-operatives associated in NAUWC are both industrial (414 co-ops) and service (97 co-ops) societies. If you compare these figures with ones of NCC I have sent last week, you can see that not all co-operatives from industrial/workers/service sector are members of NAUWC – according to our legislation only membership in NCC is compulsory, in other unions – voluntary.

Some special co-operatives from this sectors are treated in Poland on separate way and have their own co-operative unions (not members of ICA). These are: folk handicrafts co-ops (93), disabled and blind workers' co-ops (471), construction co-ops (140) and artisans' co-ops (474)

Dear Gabriella,

Please find enclosed some statistical data on Polish workers' co-ops I received today from NAUWC. Not too much, but better than nothing. Hope you have found something on credit unions and consumer co-ops. In their case I can't help you as they have their own responsibilities for foreign contacts.

Best regards
Adam Piechowski

PS. Do you know whether Mr. Domagalski's and my registration for ICAO seminar in Budapest was accepted? I sent it with a short delay as wasn't in my office until May 15th.

Portuguese cooperativism is interested in labour associations

Inscoop intends to create the legislative conditions for implementing model

The chairman of the Antonio Sergio Institute of the Portuguese Co-operative Sector, Inscoop, Manuel Canaveira, manifested how useful it would be for the economy of his country at the present moment to create suitable legislative conditions under

which to develop a legislative framework similar to that of the Spanish labour associations. In the neighbouring country associated work is growing but it still does not have the recognition of the majority of the co-operative sector.

According to Manuel Canaveira de Campos, chairman of Inscoop, (the entity that takes responsibility for the general management of the social economy, dependent from the Ministry of Work and Solidarity), in the Portuguese co-operative sector there is not a special branch for associated work that associates the existing branches of operative production, of services or of crafts.

The current division in branches of activity is rooted in history, "but as it has been possible to see from the changes that are taking place in the economy, a different organisation has become necessary".

The importance of co-operatives of associated work in Portugal is increasing and becoming more and more significant: according to the latest figures it accounts for 20% of the co-operative sector, and surely a better knowledge of cooperativism and greater support for its development would lead to levels of growth never seen before, according to Canaveira.

Support for the sector

In 1999 a program of co-operative development was approved, to give technical and financial cover to the setting up of new companies. This government initiative is in line with other legal initiatives that have been evaluated in order to improve the co-operative legal framework, which would affect mainly the associated work.

The labour association model

is not well known in Portugal. "I believe that this model, as a form of promoting self-employment and of developing the entrepreneurial spirit among workers, would be very useful in Portugal". Canaveira regards as opportune the creation of conditions that would allow a legislative framework that tended to the application of this genuinely Spanish model.

Competencies

Inscoop (Antonio Sergio Institute) is a public body integrated in the Ministry of Work and Solidarity, which has attributions relative only to the co-operative sector.

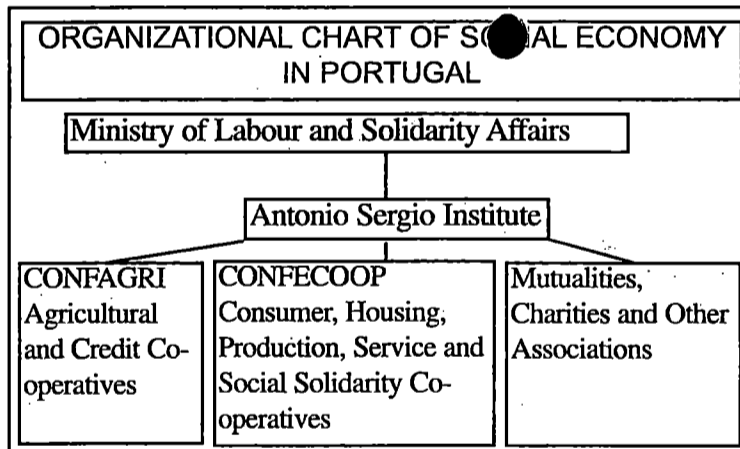

The remaining organisations (mutualities, charities, associations and foundations) do not have a specific department for support and development, although there is a relationship of co-operation with them, from the ministry and other departments including Inscoop.

This institute has among its attributions that of promoting the construction of co-operatives, publicising the importance of this type of organisations in the economic development of the country.

It also carries out the studies of the sector, as well as training and the preparation of statistics. The institute inspects the finances of the constitution and running of the co-operatives, and issues statements on legislative questions affecting the sector, at the Government's request.

Manuel Canaveira de Campos, President of Inscoop

A sector with a high presence in the social economy

The number of active co-operatives, according to figures for December 1999, is 2,945, covering nearly two million co-operativists.

In this universe the majority of companies correspond to the agricultural sector, with 912, followed by the housing branch which has 516 companies. Services has 404 co-operatives. More than 240 belong to the cultural sector and there are 209 consumer co-operatives.

Other equally important sectors are agricultural credit, co-operative universities, production, social solidarity, food distribution and pharmacy.

In terms of growth it is worth underlining that during the last financial year 95 new co-operatives came into being, the majority of which correspond to sectors which could be grouped in what in Spain is known as associated work. Co-operative employment reflects that behind these last figures there are 48,750 full time jobs.

With respect to other sectors it is worth pointing out the existence of 120 mutualities with more than one thousand workers. Associations and foundations of a social nature in which the 383 charities are included, make up a number of bodies similar to that of the co-operatives, totalling nearly 2,900.

In terms of employment, and according to the information supplied by Inscoop these organisations generate 60,892 jobs. The most significant areas of activity of these organisations are services for childhood and youth (with 57% of the jobs generated), services for the third age (with 32% of the employment), for family and the community, as well as support for the disabled and rehabilitation services.

The Future

For the chairman of the Antonio Sergio Institute for the Co-operative Sector, Manuel Canaveira, the social economy and especially the co-operative area, possess the conditions necessary for future consolidation. To achieve this they must coincide with increased civic conscience, that will generate greater responsibility: as well as in terms of economic and business organisation initiatives, promoting a response of increasing participation in economic and social life.

Cecop organises an East-West seminar in Cracow

Confesal is to be present at the meeting

The European Confederation of Participating and Co-operating Companies (CECOP) has organised an East-West Seminar to be held in mid-June, which will deal with the transfer of growth models of associated work and social cooperatives and participating companies of the West.

It will also deal with cooperation and alliances between

federations of social economy companies of Eastern and Western Europe.

The meeting, held in collaboration with the Polish Union for Inspection of Workers' Cooperatives (UCRT), is the last important event in the "CECOP bureau - East" project. For this reason the permanent secretary has been established in Prague, to carry out

An image of the last congress held by CECOP in Brussels

coordination and networking of the European Confederation in the countries of Central and Eastern Europe. The reference models to be analysed at the meeting will be the second-grade cooperative, Mondragón,

and the Italian cooperative, Legacoop, although the organisation also plans to deal with other participative models, according to Confesal's Secretary of International Relations.

REF: Reminder for statistics 1999

Dear Mr. Vrisk,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

Gabriella Sozanski
Regional Director for Europe

Dear friend:

I have received your e-mail about the statistics that we sent to the ICA. I would like to inform you the following things:

- 1) The Unión de Cooperativas Madrileñas de Trabajo Asociado (UCMTA) is the Organization for the workers cooperatives of Madrid. The address is C/Valverde, nº 13 4ª planta, 28004 Madrid (Spain). The President of this Organization is Rubén Villa Benayas.
- 2) The Federación de Cooperativas Madrileña (FECOMA) is an Organization intersectorial that group diferents Cooperatives Organizations of the region of Madrid. These are:
 - Unión de Cooperativas Madrileñas de Trabajo Asociado (UCMTA). Workers Cooperatives
 - Unión de Cooperativas de Enseñanza de Trabajo Asociado de Madrid (UCETAM). State-assisted non-public learning Cooperatives.
 - Unión de Cooperativas Agrarias de Madrid (UCAM). Agriculture Cooperatives
 - Unión de Cooperativas de Consumidores y Usuarios de Madrid (UNCUMA). Consumer Cooperatives
 - Federación de Cooperativas de Viviendas de Madrid. Housing Cooperatives
- 3) The address of FECOMA are, as the UCMTA, C/Valverde, nº 13 4ª planta, 28004 Madrid (Spain). The telf is 34.91.532.24.88. The fax is 91.522.59.80. And the e-mail is presidencia@ucmta.es. Is the same office for UCMTA and FECOMA. Also the President of FECOMA is Rubén Villa Benayas. This is the raison for you have the same datos.

I hope that you understand me these explanations. Thank you very much in advance and don't hesitate to ask me any questions.

Yours sincerely,

Alicia del Peso Caballero
Presidence Secretary

Querido Luc (y también Gabriella),

Estoy muy contento de recibir noticias tuyas, aunque en esta ocasión sea para pedirme cuentas y reñirme (es broma). Los datos difieren, efectivamente, pero la explicación es bien sencilla. Los datos que figuran en el site de CEPES corresponden exclusivamente a las cooperativas, socios, etc. afiliados a la Confederación de Cooperativas de Euskadi (a través de sus diversas Federaciones sectoriales); es decir, ni siquiera representan la totalidad de las cooperativas del País Vasco.

Los datos que os enviamos a la ACI son los datos síntesis de todas las cooperativas de España, sumando los diversos sectores (agricultura, crédito, consumo, etc.). Lógicamente, son datos absolutamente diferentes que no deben "escandalizarte". Te recuerdo que nuestra Confederación asumió la función de coordinación y recopilación de los datos del cooperativismo español en su conjunto.

Espero que por esta vez haya pasado el examen. Si necesitas cualquier otra aclaración no dudes en pedírmela.

A ver cuando nos vemos.

Un abrazo muy fuerte,

Javier

Hola javier, qué tal ?

Soy Luc, pero te escribo desde el computer de Gabi.

Bueno, je continue en français que es mas facil para mi. En allant chercher des datas statistiques pour les autres organisations espagnoles membres de l'ACI (CCAIE, CCC etc...) sur le site de CEPES, j'ai trouvé des data 1999 sur ton organisation CCE, et, quelle surprise !, elles ne correspondent pas à celles que nous avons reçues dans la réponse au questionnaire.

Por ejemplo :

Número de cooperativas :
489 (sur le site web) et 22 564 (réponses au questionnaire)

EMPLEO TOTAL (incluye socios de trabajo/trabajadores y asalariados no socios)
35.628 (sur le site web) et 259 757 (réponse au questionnaire)

Número de socios trabajadores/de trabajo:
(personas físicas o jurídicas)
535.000 (sur le site web); total number of members 4.723.000 (dans la réponse)

Les différences sont si importantes que je suppose qu'il s'agit de regroupements statistiques différents...le problème pour moi est quej'ai besoin de comprendre ces différences pour l'analyse qui sera faite ensuite. Alors d'avance, merci pour tes explications, et bonnes vacances à toi.

Amitiés

Luc

LÍNEAS GENERALES

La Unión Nacional de Cooperativas de Consumidores y Usuarios de España, con domicilio social en Madrid, Plaza de Navafria nº 3, se constituyó con la denominación Unión Nacional de Cooperativas de Consumo que se regía de junio, mediante elevación a escritura pública, que fue inscrita, en fecha 6 de julio de 1.988, en el Libro de Inscripción de Asociaciones Cooperativas, al tomo I, folio 40 y bajo el asiento nº 6, de acuerdo con lo dispuesto en la Ley 3/1.987, de 2 de abril, General de Cooperativas, asignándosele el número 3-A.C. y conservando el nº 28-U.C, con que figuraba anteriormente inscrita.

La Unión, según datos a 31 de diciembre de 1.999, asocia a 255 Cooperativas de Consumidores y Usuarios, y tiene presencia en 41 provincias de 15 autonomías. Es una entidad sin ánimo de lucro que, en cuanto a las entidades asociadas a la misma tiene los siguientes

FINES Y OBJETIVOS

- a) Representar los intereses generales de dichas entidades pudiendo ejercitar las acciones legales procedentes.
- b) Mantener y asegurar la pureza del espíritu cooperativo y la armonía entre sus miembros, o entre éstos y sus socios, ejerciendo, a tal fin, la conciliación en las situaciones conflictivas.
- c) Organizar para las entidades cooperativas agrupadas los servicios de interés común de asesorías, auditorías, revisiones contables, jurídicos, técnicos y cuantos sean convenientes a los intereses de éstas.
- d) Participar cuando la Administración Pública lo solicite, en las Instituciones y Organismos de ésta en orden al perfeccionamiento del régimen legal e Instituciones del ordenamiento socioeconómico.
- e) Promover y orientar la formación cooperativa, técnica, profesional y en materias que afecten a los consumidores y usuarios, de las Cooperativas de Consumidores y Usuarios, sus socios y trabajadores.
- f) Promover y fomentar la creación de Cooperativas de Consumidores y Usuarios.
- g) Promover las obras asistenciales, seguros, previsión, crédito, ahorro y, muy especialmente, la integración cooperativa entre sus asociados.

- h) Fomentar los estudios, publicaciones, experiencias, exposiciones y certámenes, y en general, cualquier actividad tendente a una mayor información sobre el cooperativismo y la defensa de los derechos de los consumidores y usuarios.
- i) Cualquiera otra función que pueda corresponderle, y en especial, las relativas al cooperativismo de consumidores y usuarios o a la defensa de los legítimos intereses de los mismos, o que se le atribuya por disposiciones legales por los Estatutos aprobados por el Ministerio de Trabajo el 23 de mayo de 1.945 y adaptó sus Estatutos a lo preceptuado en el Real Decreto 2.508/1977 de 17

PLAN ESTRATÉGICO

Para el logro de sus objetivos la Unión Nacional de Cooperativas de Consumidores y Usuarios lleva a cabo un plan de trabajo que consiste tanto en la organización de todos los servicios enumerados anteriormente, para las cooperativas asociadas como la realización de una serie de proyectos y programas que más adelante reseñaremos.

Hay que especificar que, siendo el cooperativismo de consumo, por definición, la primera forma de asociacionismo de consumidores, perfectamente estructurada y vertebrada, que se creó no sólo en España, sino a nivel mundial, hecho por el cual así se les reconoció en la Ley 26/1984 de 19 de julio, General para la Defensa de los Consumidores y Usuarios, la UNCCUE realiza una serie de programas que aúnan los fines de la Unión con los propios de una Asociación de Consumidores y todos los fines y objetivos anteriormente citados respecto a las cooperativas de consumidores y usuarios asociadas a UNCCUE se hacen extensivos a los socios individuales de cada una de ellas.

PROGRAMAS, PROYECTOS Y CAMPAÑAS

- Programas de formación de Gerentes, en temas específicos.
- Programas de formación de los cuadros de dirección de las cooperativas, así como de sus socios en temas relacionados con las actividades que desarrolla la UNCCUE en tanto Unión de Cooperativas como Asociación de Consumidores, es decir: cooperativismo, consumo, servicios, defensa de los derechos de los consumidores, defensa del medio ambiente, etc.
- Programas de Integración Cooperativa.
- Proyectos de Integración en el ámbito de la Distribución
- Proyectos de Calidad Total.
- Proyectos específicos:

- Proyectos que contribuyen a mejorar la posición de los los consumidores en el Mercado Único Europeo.
- Proyectos que conlleven una mayor integración de la política de consumo en otras políticas concurrentes.
- Proyectos que potencien el Sistema Arbitral de Consumo.
- Proyectos que por su interés social sean dirigidos a colectivos específicos de consumidores que por su situación especial requieran una atención diferenciada.
- Proyectos dirigidos a fomentar la participación como miembros de consulta y participación en el ámbito nacional e internacional y su incorporación a movimientos asociativos supranacionales.
- Campañas de diversa índole, entre las que cabe destacar: Campaña de recogida de pilas, Campaña de papel reciclado, Campaña de envases y embalajes, etc.

Además hay que reseñar que la Unión Nacional de Cooperativas de Consumidores y Usuarios está inscrita con el número 51 en el Registro de Centros Docentes del Ministerio de Trabajo

Un capítulo muy importante para hacer llegar toda esta información y lograr una plena participación es la

DIFUSIÓN Y FOMENTO

Que la Unión logra a través de la publicación notas informativas sobre temas puntuales de interés para el colectivo que agrupa, así como con la edición de la revista "IBERCOOP en defensa de los Consumidores" donde se incluyen estudios y análisis comparativos, e información de interés para el colectivo que agrupamos.

Además, y de acuerdo a lo preceptuado en sus Estatutos, todos los años se celebra la Asamblea General de UNCCUE, con una participación que la mayoría de las veces desborda nuestras previsiones.

Cada cuatro años UNCCUE celebra su Congreso Nacional, habiéndose celebrado el último, con gran éxito de participación y contenidos, el pasado año en Menorca.

Pero también es importantísimo citar las labores que desarrolla en el ámbito de la

PARTICIPACIÓN, COLABORACIÓN Y REPRESENTACIÓN

La trayectoria de trabajo de la Unión desde su constitución ha dado como fruto un reconocido prestigio no sólo en el ámbito nacional sino internacional siendo muchos los Organismos y Organizaciones donde participa activamente como miembro de ellas, en el caso de Organizaciones a las que está adscrita, o como colaborador en todas aquellas en las que nuestra presencia es solicitada, como:

- * Consejo Económico y Social español.
- * Comité Económico y Social de la Unión Europea.
- * Consejo de Consumidores y Usuarios.
- * Juntas Arbitrales de Consumo
- * Escuela Universitaria de Estudios Empresariales y Cooperativos (CIRIEC-ESPAÑA).
- * Alianza Cooperativa Internacional (ACI).
- * Confederación de Organizaciones Familiares de la Comunidad Europea (COFACE).
- * Asociación Latinoamericana de Centros de Educación Cooperativa (ALCECOOP).
- * Instituto Nacional de Fomento de la Economía Social del Ministerio de Trabajo y Seguridad Social.
- * Instituto Nacional del Consumo del Ministerio de Sanidad y Consumo.

... y otros.

Además la UNCCUE tiene establecidos convenios de colaboración e intercambio con movimientos cooperativos y asociativos de países tanto de la Unión Europea como de su entorno próximo y mantiene frecuentes y fructíferos contactos de colaboración con movimientos cooperativos y asociativos de países como Japón, EEUU, o con la práctica totalidad de países de latinoamericanos.

Así mismo colabora con asiduidad, bien en la organización o con su asistencia y participación en todo tipo de encuentros, jornadas, seminarios, conferencias, congresos, etc., en el ámbito nacional e internacional, como por ejemplo los Congresos Europeos de Economía Social, ACI, etc.

La Unión Nacional de Cooperativas de Consumidores y Usuarios de España espera y desea, a través de este breve esbozo de sus actividades, dar una idea aproximada de cuáles son sus objetivos y confía continuar la trayectoria que desde hace más de cincuenta años ha venido desarrollando.

5.- En cuanto a actividades con organismos internacionales, actualmente mantenemos colaboración con organizaciones, griegas portuguesas, italianas, en Europa, así como en diversos países latinoamericanos, fundamentalmente en Cuba, donde tenemos un proyecto de formación de postgrado con la Universidad de la Habana desde 1.994 y que se prolongará como mínimo hasta 2002.

Si necesitáis mas información estamos a vuestra disposición, un saludo

Fdo: Ana Isabel Ceballo Sierra

Dear Mr Balourdet,

Our chairwoman Christina Axelsson has asked me to send you an answer to your e-mail concerning statistical data of our organisation for the year 1999. I can't say what has happened to the questionnaires you obviously sent us. I started my work here in August last year. If somebody with us sent you the data last July they didn't make a copy. As far as I can see the only solution is that you send me the questionnaires once again and you will have to be quick because we are moving house within a month and I don't have the new adress yet.

With co-operative greetings,

KONSUMENTGILLESFÖRBUNDET
Christina Jonsson

REF: Reminder for statistics 1999

Dear Colleague,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

Gabriella Sozanski
Regional Director for Europe

Dear Mr de Woul,

We have received your reply to the ICA statistics questionnaire and we thank you for that. The fax transmission was however not perfect and the turnover datas are not readable. Could you please confirm that :

wholesale turnover = 80 billion SEK

Assets = 160 billion SEK

and also indicate for which type of product/activity is the turnover of 30 billion SEK.

Thank you very much.

Best regards

REF: Reminder for statistics 1999

Dear Colleague,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

Gabriella Sozanski
Regional Director for Europe

REF: Reminder for statistics 1999

Dear Colleague,

May I remind you of the letter, which we sent out in July 2000, asking for the statistical data of your organisation for the year 1999. The deadline was 30 September 2000. So far, we have received 41 answers from European organisations. In order to be able to compare and analyse the general development trends in the European co-operative movement, we kindly ask you to provide us with the requested data.

If you have any problems completing the questionnaire or need further assistance please do not hesitate to contact us on the above address.

We look forward to receiving your data as soon as possible since the outcome is to be published in the ICA Annual Report 2000.

With co-operative greetings,

Gabriella Sozanski
Regional Director for Europe

Background Info

25 July 2000

TO: Database Task Force
FROM: MariaElena
REF: Entry table for Statistics in Database

The DB consultant came today to make changes so that statistical data entered by organization remained separate from data entered by country. This change has been effectuated. You will note that a call box will pop up when you make a selection of statistics asking whether you wish data by organization or by country.

The DB consultant is also working on the statistical data entry form. Given that we have modified the data requested in the questionnaire, the data entry sheet is also in the process of being revised. The consultant has put together a data entry sheet. In order that it responds to the needs and expectations of all I am attaching it so that all can have a look and make comments before it is changed.

Attached you will find the entry form as it appears in the DB – SHEET I - and the data entry form he proposes SHEET II.

In discussions with Gabi and Marie-Claude, the following (valid for both data entry sheets) was agreed:

1. Fields in the original data entry sheet should continue to be listed as data has been entered for those.
2. Individual should be changed to **Individual members** (or **Indiv members** if it needs to be shortened.)
3. Dwellings own should be changed to **Dwellings managed** (to correspond with the questionnaire)
4. Dwellings built should be changed to **Dwellings constructed** (to correspond with the questionnaire)

With regard to SHEET II, the DB consultant proposes the following:

1. Adding a table where an annual exchange rate would be entered and would be applied to all financial data for that currency.
2. A calculation field for individual members i.e. when entering *total* and *women* members, *men* would be automatically calculated. If there is no information in the *women* field, then no calculation is made – this to avoid showing that all coop members are men.
3. Making the entry sheet larger to enable the full names of each field to be listed.

The need for a larger field for market share was also discussed with him. He suggested that the easiest and least costly option would be to have the market share field be a text field. This would allow as much information as possible to be added and allow for us to easily pull out the information.

What we need to decide **THIS WEEK**, is which data entry sheet will be used (a question of presentation and ease of input) and what it will contain. To expedite the decision-making process, may I propose that we sit together soonest. Let me know when you are available for a 30 minute maximum discussion. The DB consultant needs to know so he can continue work.

Thanks

Dear colleagues,

It seems that we covered a lot in a few months. Hoping that the collection and input of data will go well.

I would like to thank MariaElena for saving me the hassle of doing the report on the consultant's latest works. I really appreciate it as it saves me some time for the preparation of my departure.

Just a few small additions to her report

As you probably saw, what we considered as small changes in fact lead to other changes:

- when we had to correct the report on statistical data (data by country and by organisation adding to each other) we had to consider which data to take into account. As we have both, especially for Europe, we need to keep both, leading to the creation of another report, cf MEC report
- the changes had to be done also on report by sector, by region, worldwide which we did not consider during our meeting as we focused on the one by country.
- the change required by MEC on data on women (%age changed to actual data) led to the fact that he might need to do some calculations to keep the old data (which are in %age and furthermore is giving as a range of %age, I advised that he takes the middle)

This is just to make us all aware that his working days (meaning fees) might be a little bit more than what we expected.

Regarding the change of structure, adding a contact without organisation. As the db was created having in mind that the organisation is the center of everything (all items are links to organisation), what we considered as a small change in fact is a complete change of the db structure, meaning that it will be even better to start from scratch rather than change it, which is not our goal I suppose.

What is proposed is a window that will pop up asking for contact details if the contact is not linked to an organisation. A fictif organisation will be created automatically and will be hidden. This will ease the work of MarieClaude for entering the data and doing the mailing list.

Instead of spending the budget in restructuring the db entirely, which we might consider in 3 to 5 years, a window for making queries possible for everybody (not only MarieClaude) is proposed. This work will be done in about 5 working days (budget we considered to spend on changing the structure which will need more that 10 days after he sees the way the db is structured).

That is a lot of thoughts if we have this meeting asked by MEC. Let's have a meeting on Thursday the 27th at 10:00a.m as we are all here at that time.

Dear Mrs. Comos Tovar,

I was informed by Mrs. Sozanski to send you a copy of the questionnaire requesting statistics for the year 2000 and the accompanying letter, which we sent out to all our members in July 2000.

Please excuse the misunderstanding of us sending you a reminder when you hadn't actually received the first letter. You have recently joined the ICA and I was not aware that you had not received a copy of our first mailing.

I hope that we did not cause to much confusion.

If you have any questions on the questionnaire or have any difficulty opening the attachments please do not hesitate to contact us on the address below. We would appreciate you sending us the information at your earliest convenience.

Thank you for your co-operation.

Yours sincerely,

Martina Donahower

Dear Colleague,

May I remind you of the letter, which we sent out to you 27 July 2000, asking for the statistical data from ICA member organisations, for the year 2000.

The deadline was 30 September. So far we have received 34 answers from European organisations. In order to be able to compare and analyse the general development trends we kindly ask you to provide us with the requested data. The quicker we receive information from you the sooner we can make the final outcome available to you.

We look forward to receiving your data as soon as possible.

With co-operative greetings,

REF: Reminder for ICA Statistics 2000
To ICA member organisations in Europe

PAGES: 4

Dear Colleague,

May I remind you of the letter, which we sent out to you 27 July 2000, asking for the statistical data from ICA member organisations, for the year 2000.

The deadline was 30 September. So far we have received 34 answers from European organisations. In order to be able to compare and analyse the general development trends we kindly ask you to provide us with the requested data. The quicker we receive information from you the sooner we can make the final outcome available to you.

We look forward to receiving your data as soon as possible.

With co-operative greetings,

Gabriella Sozanski
Regional Director for Europe

To: Stats2000reminder20Nov

REF: ICA Statistics

Dear Colleagues,

As you know basic indicators on co-operative activity can be an effective tool for organizations to track progress and assist in planning. Sharing this information with the ICA can assist us to better serve its members and effectively represent the Co-operative Movement in international, regional and national level fora. ICA Head Office is increasingly requested by members, development partners and international organizations to provide statistical information on the impact of the Co-operative Movement.

It is for these reasons that ICA began its statistical databank in 1996. You may recall that at that time, we had sent ICA member organizations a comprehensive questionnaire requesting basic information and statistics. Today, we ask your assistance in updating basic information on your organization including statistical data.

The attached questionnaire includes a substantially reduced number of indicators to facilitate your replies.

You will find institutional information on your organization in the first section. Please check the information and make any necessary changes, noting them directly on the sheet if possible or attaching an additional sheet. You will note that the information on contacts is limited to contacts at the international level – i.e. international specialized bodies as opposed to specific regional membership.

The second section includes statistical indicators on membership, employees, and basic financial information. Please note that we have asked for gender disaggregate data on membership and employees. We have also included a section for you to provide information regarding the share of the market for which co-operatives are responsible.

Please fill in both sections and mail, fax or e-mail (ica@coop.org) your replies to the ICA Head Office Secretariat c/o Marie-Claude Baan, ICA Databank Coordinator. We would appreciate receiving your replies by **30 September 2000**.

We hope that you will be able to provide us with all the information we require and look forward to receiving updated information from you as soon as possible.

The ICA Databank Task Force thanks you in advance for your assistance.

REF: ICA Statistics

Dear Colleagues,

As you know basic indicators on co-operative activity can be an effective tool for organizations to track progress and assist in planning. Sharing this information with the ICA can assist us to better serve its members and effectively represent the Co-operative Movement in international, regional and national level fora. ICA Head Office is increasingly requested by members, development partners and international organizations to provide statistical information on the impact of the Co-operative Movement.

It is for these reasons that ICA began its statistical databank in 1996. You may recall that at that time, we had sent ICA member organizations a comprehensive questionnaire requesting basic information and statistics. Today, we ask your assistance in updating basic information on your organization including statistical data.

The attached questionnaire includes a substantially reduced number of indicators to facilitate your replies.

You will find institutional information on your organization in the first section. Please check the information and make any necessary changes, noting them directly on the sheet if possible or attaching an additional sheet. You will note that the information on contacts is limited to contacts at the international level – i.e. international specialized bodies as opposed to specific regional membership.

The second section includes statistical indicators on membership, employees, and basic financial information. Please note that we have asked for gender disaggregate data on membership and employees. We have also included a section for you to provide information regarding the share of the market for which co-operatives are responsible.

Please fill in both sections and mail, fax or e-mail (ica@coop.org) your replies to the ICA Head Office, Secretariat c/o Marie-Claude Baan, ICA Databank Coordinator. We would appreciate receiving your replies by **30 September 2000**.

We hope that you will be able to provide us with all the information we require and look forward to receiving updated information from you as soon as possible.

The ICA Databank Task Force thanks you in advance for your assistance.
