PREFACE

Dear Cooperator,

Enclosed please find the second computerised documentation bulletin comprising 1111 titles on Cooperative and allied subjects. Information regarding the technicality involved, searchable items contained and the sources referred to have been dealt in detail in the preface of the first Documentation Bulletin which has been reproduced on the following page.

In our first bulletin the readers were requested to express their views and how useful they found the Documentation Bulletin in their research work, book selection etc. However, we received responses only from a few readers. Hence, we are once again requesting the users of this bulletin to send their valuable comments and suggestions so that we can improve the bulletin and make it more useful to all concerned.

PREFACE TO FIRST DOCUMENTATION BULLETIN

As a part of its information and advisory services in the field of Cooperatives in Asia and Pacific the International Cooperative Alliance, Regional Office for Asia and Pacific has since 1960, been building a specialised library and documentation centre of the publications on cooperatives and allied subjects.

With the increasing interest of the cooperative movements of the region to develop their Library and Documentation Services, we have been frequently requested to supply lists of books on Cooperative and Allied Subjects. Similar interest has been shown by cooperative researchers and universities of the region.

ICAROAP Library and Documentation Centre has made humble effort to computerize its collections since 1989 using Mini*Micro CDS/ISIS version 2.3 published by UNESCO in 1989. The enclosed documentation list contains about one thousand titles. List is arranged as per UNIVERSAL DECIMAL CLASSIFICATION and Cooperative titles are classified as per classification scheme followed by our library. The searchable items are 1. Call No.(Classification Number); 2. Author; 3. Title; 4. Key words(subject); 5. Key words (geography); 6. Key words (organization).

At the end it contains Author, Subject and Area Indexes. While preparing it, particularly in determining the Key words, we have referred to ILO, FAO, OECD and ESCAP bibliographies/ documentation bulletins/Thesaurus etc. so that the present output has universality. Therefore, we gratefully acknowledge the technicality used by us from these bulletins. In the process we were able to create our own cooperative thesaurus, which I am sure will be of great use to other Cooperative Libraries for the computerization of these collections.

I request the readers to express their views and how useful they found it in their research work, book selection, etc. Hence forth similar annotated computerised bibliography of books and articles will be circulated periodically.

Further I request the users of this list, cooperators, cooperative researchers, teachers and library professionals to send their comments to improve this documentation list.

This documentation list is the result of the very concentrated efforts made by our Librarian and Documentation Officer and his staff. I would like to take this opportunity to thank him and his staff for their successful efforts.

ICA DOMUS TRUST

(Established in the memory
of Dr. Mauritz Bonow)

The ICA DOMUS TRUST, registered in November 1988, was created in the memory of Dr. Karl Daniel Mauritz

Bonow (of Sweden), former President of the International Cooperative Alliance (1962- 1975). He was one of the pioneers in visualising the essentiality for international aid for the development of the Cooperative Movement as an instrument of socio-economic transformation and development of economy in the developing countries in general, and, for the upliftment of the weaker sections of the society in particular. Dr. Mauritz Bonow dedicated his whole life for this cause. He initiated and introduced the idea of Swedish international assistance for cooperatives known as the Fund Without Boundaries. He was responsible for the establishment of the ICA Regional Office in Asia and for creating a permanent work-place for the ICA in the Asia-Pacific Region. In recognition of the work and contribution made by him, the present building housing the offices of the ICA Regional office in New Delhi was named Bonow House in 1975. And now, the ICA DOMUS TRUST has been established in his memory.

The main objectives of the ICA DOMUS TRUST are, among others, propagation of Co-operative Principles; promotion of cooperatives; assist cooperative organisations/ movements in encouraging genuine, self-supporting and technically sound cooperative organisations; bringing out publications for the promotion of teaching and study of Cooperation; undertaking cooperative education and training activities and promoting collaboration between Cooperatives and the State, etc.

Any contributions made to the ICA DOMUS TRUST by way of donations and purchase of cooperative publications, would provide strength and acceleration to the process of achievement of the objectives of the Trust.
