## INTRODUCTION

This is the second revised and enlarged edition of the “**ICA Member-Organisations in Asia and the Pacific - A Statistical Profile 1993**”, including the newly added member-organisations with the ICA Regional Office for Asia and the Pacific (ICA/ROAP), prepared by the Regional Cooperative Data Bank of the ICA/ROAP. The Profile is a handy reference document, which gives basic information about ICA Member-Organisations including statistical data of primary cooperative societies affiliated directly or indirectly with the ICA Member Organisations in Asia and the Pacific Region.

Data appearing in this publication have been compiled through the completed questionnaires received from the individual member-organisations. Almost, in all the cases, data are published in the same order in which they have been received from the Member-Organisations, on a broad standard pattern. It may, however, be noted that the data for Bangladesh, Iran, Iraq, Kazakhstan, Kuwait, Mongolia, Sri Lanka, Turkmenistan, and Vietnam were obtained from several sources, official and un-official, and should, therefore be used with caution.

The data up to the end of 1993, wherever available, have been included in the tables. In a few cases, however, the data have been suitably grouped and shifted to a common base, as far as possible, to facilitate international comparison in terms of calendar years. For example:

- April 1993 to March 1994           grouped in       1993
- July 1992 to June 1993           grouped in       1993
- January to December 1993   1993

Detailed Financial Years are listed in Annex I.

The statistical data of a few organisations available upto 31st March 1994, are included in the tables. In some cases, figures were available only upto end of 1990. Some of the Member-Organisations, have not responded to our questionnaires, in that case whatever information available with us have been retained or left blank.

The sources of information and availability of the data are given in the notes of the statistical figures of the respective organisations.

The information on different types of cooperatives are compiled under 10 sectors and efforts have been made to clarify the criteria for the types of cooperatives included under each sector.

**Agricultural Cooperatives** - includes : agricultural (producers/ production) coop societies, collective farming, lift irrigation, cooperative processing (sugar, rice, etc.), dairy cooperative, poultry coops, fertiliser coop, agro-industries, land reform and land settlement cooperatives.

**Fisheries Cooperatives** - includes : fish production and fishermen's cooperative societies.

**Banking Cooperatives** - includes : thrift and loan, credit, banking and financing cooperative societies.

**Workers Productive Cooperatives** - includes : weavers coops, artisanal coops, industrial coops, etc.

**Multipurpose Cooperatives** - includes : multipurpose and/or general purpose cooperative societies, who have more than one business activity. Combination of agricultural, marketing, credit, consumer, etc.

**Consumer Cooperatives** - includes : wholesale and retail consumer cooperative societies with open as well as restricted membership.

**Housing Cooperatives** - includes : permanent housing cooperatives, house building cooperatives, group housing cooperatives, etc.

**Insurance Cooperatives** - only insurance cooperatives.

**Service Cooperatives** - includes : labour cooperatives and contract labourers' societies, health cooperatives, and medical coops.

**Other Cooperatives** - includes : forest labourers, school/youth coop, women coop, education and training coops, computer training coop, and other type of cooperatives.

The fiscal year, currencies and the international abbreviations, and exchange rates equal to US \$1.00 as on March 1994, have been used in this Profile, listed in the Annex I.

We wish to express our appreciation and thanks to all ICA Member-Organisations in Asia and the Pacific Region, and their staff for compiling and providing data on time as and when required by us, which has helped us in bringing out this Profile. We hope that their cooperation will continue in the years to come.

We hope that this publication will be of interest to cooperative leaders, planners, administrators and the concerned with cooperative development, both from within and outside the region. Suggestions and comments for improvement of the future publication of this Profile are welcome.

NEW DELHI :  
15th December 1994.

## **ICA/ROAP REGIONAL CO-OPERATIVE DATA BANK - A BRIEF NOTE**

The ICA Regional Office for Asia and the Pacific has set up a Regional Cooperative Data Bank in January 1991, for serving its Member-Organisations and co-operative institutions in the Region with the following aims and objectives:

- To monitor co-operative development trends with a view to know the overall regional performance and the performance of individual cooperative movement.
- To formulate cooperative policies for promoting cooperative development in the Region.
- To make suggestions to individual cooperative movements in regard to cooperative development strategies and programmes.
- To disseminate the information collected among the cooperatives/cooperators.

### **TARGET GROUPS :**

The information collected and compiled by the Regional Cooperative Data Bank will be used by :

- ICA/ROAP Projects,
- ICA HQ and Regional Offices,
- ICA Member-Organisations,
- Cooperative leaders and top management decision makers of institutions responsible for planning cooperative development and formulation of policies,
- Cooperative executives and officials responsible for implementation and carrying out various cooperative activities in programmes/projects,
- Government officials of member-countries,
- Development planners and research institutions engaged in cooperative research and development,
- NGOs and UNOs at international and national level, engaged in assisting cooperative development as well as research institutions.

### **COLLECTION OF DATA :**

Initially, it was decided to collect the basic information and statistical data of primary cooperative societies affiliated directly or indirectly with the ICA Member-Organisations in Asia and the Pacific on standardised formats designed by the ROAP Data Bank in consultation with the ICA HQ. The main source of the collection of data are our Member-Organisations in Asia and the Pacific. Secondly, the information and data were collected from our own sources, which were available in various documents in our Library.

## **DEVELOPMENTS :**

In the beginning, the ICA/ROAP Data Bank had collected basic information on ICA Member-Organisations and compiled a statistical profile, entitled, "ICA Member-Organisations in Asia and the Pacific - A Statistical Profile 1991". The Profile gives basic information about ICA Member-Organisations including statistical data of primary cooperative societies affiliated directly or indirectly with the ICA Member-Organisations in Asia and the Pacific.

Profile of ICA Member Countries in Asia-Pacific Region has also been compiled - It contains the basic indices and figures on Coop Movement of ICA Member Countries in Asia and the Pacific.

The Data Bank Unit which is now a separate activity under DPCP with a Technical Officer in-charge of the operations, is now operational. The data bases in use at present are :

- General information concerning Member-Organisations;
- Sectoral information on Member-Organisations;
- Membership subscription paid to ICA HQ, by ICA Member-Organisations in Asia-Pacific;
- Contribution of ICA Member-Organisations in Asia-Pacific for ROAP Administration and Project Activities;
- ICA Member-Organisations in Asia and the Pacific - A Statistical Profile 1993;
- Profile of ICA Member Countries in Asia-Pacific Region
- A Profile of Medical Co-operatives in Kerala, India.

## **FUTURE PLANS :**

- Expand existing Database Files by adding more Sector-wise Database Files, i.e.:
  - Agricultural Cooperatives in Asia-Pacific : Basic Data on ICA Member-Countries in Asia and the Pacific.
  - Fisheries Cooperatives in Asia-Pacific : Basic Data on ICA Member-Countries in Asia and the Pacific.
  - Credit & Banking Cooperatives in Asia-Pacific : Basic Data on ICA Member-Countries in Asia and the Pacific.
  - Database for "Educational Activities Conducted by ICA/ROAP since 1987".
  - Any other subject areas will be undertaken on demand of ICA Projects, and ICA Member-Organisations.

To carryout the aforesaid task it is imperative to have effective and timely feedback from the respective Projects and the ICA Member-Organisations in Asia and the Pacific.

- To collect, store and analyse the Co-operative Data.
- To disseminate the collected information among the ICA/ROAP Projects, Member-Organisations, cooperatives/cooperators and other users.
- To coordinate with ICA Central Cooperative Data Bank and other Regional Offices (Regional Cooperative Data Banks).
- To encourage and assist Member-Organisations in the countries of the Region to establish National Cooperative Data Banks as well as Information Resource Services by organising Meetings, Workshops, Study Visits, etc.
- To coordinate with Member-Organisations (National Cooperative Data Banks), and Government Cooperative Departments at national level.
- To coordinate with international organisations (UNOs and NGOs) in the Region of Asia-Pacific by participating in their technical meetings, seminars, workshops, etc.

Data Bank is working in close collaboration with ICA Central Cooperative Data Bank and other Regional Offices (Regional Cooperative Data Banks) by using common data entry system.

#### **COORDINATION WITH OTHER AGENCIES :**

At present, almost in all the countries of the Region, Government Cooperative Departments are collecting, maintaining and issuing cooperative data. The Data Bank should coordinate its activities with the Government's Cooperative Departments as well as the work, which is already being done by them. The data available with Government Departments in several cases are almost 2-3 years old. However, ICA/ROAP should develop close relations with Government Cooperative Departments in the Region.

The data issued by other agencies (national and international) in any form should be utilised by the Data Bank. This precaution is necessary in order to minimise the costs as well as the workload.

The ICA/ROAP Regional Co-operative Data Bank would endeavour to develop close relationship with FAO, ILO, ESCAP, ACCU, etc., in the Region of Asia-Pacific and also support the Member-Organisations in the Region on such system for a cooperative data collection and exchange system.

It would be essential for ICA/ROAP to coordinate its efforts with the networks, which are already functioning in the Region. The Data Bank should also collaborate with other similar institutions (national and international) in the Region in order to avoid duplication.

## **SUGGESTIONS :**

To strengthen the ICA/ROAP Regional Coop Data Bank, the Member-Organisations are requested to :

- Set-up National Cooperative Data Banks at national apex cooperative organisations.
- Collect basic/primary data on cooperatives through national, state, provincial and district level cooperative organisations.
- Classify collected Data.
- Store the collected and classified data into the Data Bank.
- Analyse the collected data and its presentation to the management at relevant levels.
- Retrieve and disseminate collected data from the Data Bank and make it available for specific queries,
- Periodically publish the collected data in the form of Statistical Bulletins.
- Coordinate with the Regional Co-operative Data Bank of ICA/ROAP.

Further, we request our member organisations to keep on updating the information and data at regular intervals, and inform the ICA/ROAP Regional Cooperative Data Bank at their convenience (quarterly/half-yearly/yearly), which , we are sure would ultimately form a network with ICA/ROAP Regional Cooperative Data Bank in Asia and the Pacific Region as well as Central Cooperative Data Bank globally with the ICA HQ, Geneva.

**The International Co-operative Alliance** founded in London on 18th August 1895, is one of the oldest and biggest non-governmental international organisations. It is a world-wide confederation of cooperative organisations of all types. The ICA has affiliates in 101 countries with 225 national organisations and 9 international organisations serving over 765 Million individual members. It is the only international organisation entirely and exclusively dedicated to the promotion of Cooperatives in all parts of the world.

The ICA enjoys the right of participation in meetings and development work of the United Nations Specialised Agencies such as the ILO, FAO and UNESCO, and holds Consultative Status of Category-I in the United Nations Economic and Social Council (UN/ECOSOC).

Besides the Head Office of the ICA, which is in Geneva (Switzerland), there are five regional offices, viz., (i) the Regional Office for Asia and the Pacific in New Delhi, India (established in 1960), (ii) the Regional Office for East, Central, and Southern Africa at Moshi, Tanzania (established in 1968), (iii) the Regional Office for West Africa at Abidjan, Cote d'Ivoire (established in 1979), (iv) the Regional Office for Central America and the Caribbean at San Jose, Costa Rica (established in 1990), and (v) the Regional Office for South America at Brasilia, Brazil (established in 1993).

The ICA Regional Office for Asia and the Pacific (ICA/ROAP) covers 26 countries with 63 national level organisations and 1 international organisation representing over 478 Million individual members. These countries are : Australia, Bangladesh, China, Fiji, India, Indonesia, Iran, Iraq, Israel, Japan, Jordan, Kazakhstan, Republic of Korea, Kuwait, Kyrgyzstan, Malaysia, Mongolia, Myanmar, Pakistan, Philippines, Singapore, Sri Lanka, Thailand, Turkmenistan, Uzbekistan and Vietnam, and one international organisation - ACCU.

Main activities of the ICA/ROAP include coordination of cooperative development efforts within the Region and promotion of exchanges and experiences; project identification, formulation and evaluation; promotion of establishment and development of national cooperative apex organisations; and organisation of seminars and conferences on specific subjects including support for programmes aimed at the involvement of women and youth in cooperative activities.

Finances are derived from member subscriptions, own funds and assistance from donors for various activities carried out by the ICA.
