P R E F A C E

The International Co-operative Alliance presents its comparative statements for the years 1968 and 1969.

The data for 1969 cover co-operatives in 47 of the 60 countries affiliated to the Alliance and have been compiled from replies received in answer to our questionnaire to member organisations; from Annual Reports and published articles; and in some case, from information received from correspondence with individual organisations. We are indebted to the Registrars of Co-operatives in Africa and Asia who have sent us annual reports relative to their countries and to the Reserve Bank of India for its detailed statistical report; such statistics include all co-operatives, whether or not the organisations are affiliated to the national co-operative movement within the country.

The membership figures may, in some cases, include a duplication in that some persons are members of more than one society. To minimise double counting wherever possible, a Co-operative Society which carries out multi-purpose activities, e.g. agricultural marketing and credit business and selling of consumer goods and farm supplies, is recorded under the heading appropriate to the predominant activity of that organisation.

Where no information has been obtained for 1969 the latest available data are given.

The TOTAL MEMBERSHIP figure of 268,027,350 shows an increase of 13,109,816 (5.14%) over 1968. The percentage increase or decrease over the previous year for each type of membership is given below:

| <u>Type of Society</u> | <u>Percentage + or -</u> |
|---------------------------------|--------------------------|
| Consumer | + 1.83 |
| Credit | + 6.92 |
| Agricultural | + 11.44 |
| Miscellaneous | + 8.17 |
| Building and Housing | - 7.71 |
| Workers' Productive & Artisanal | + 16.33 |
| Fishery | + 1.43 |

PAGE 3.

The 1968 CONSUMER figures published for DENMARK were incorrect. The questionnaires returned to us by FDB and DKF both included membership and trading returns of HB - an organisation affiliated to both national organisations. This duplication of figures enhanced the total number of Societies, the total of Members and the total Turnover of the DANISH Consumer societies. Had this duplication not been made the 1969 membership figures would show an increase of 3.73% and the total turnover figure would show an increase of 9%.

The large decreases shown in membership and societies figures for FINLAND and FRANCE are due to the omission of figures relating to CREDIT societies. Had these deletions not been made FINLAND would record an increase in membership of 0.14% and a decrease in societies of 2.22%. The decrease for FRANCE would be - membership 2.67%, societies 0.05%. The reason for such deletion is that these savings societies rightly belong with BANKING statistics. BELGIUM too has a thriving savings movement but this organisation also belongs with BANKING statistics. We are hopeful that progress will soon be made - with the help of the ICA BANKING COMMITTEE - in publishing Banking statistics.

For the first time we are including data from Deutscher Raiffeisenverband relating to CREDIT and AGRICULTURAL Societies and because of this inclusion large increases are recorded for the GERMAN FEDERAL REPUBLIC.

INDIA continues to increase its membership and now heads the table with 59½ million members. The U.S.S.R. has the second largest membership figure of 58½ million followed by the U.S.A. with almost 45 million members.

We are disappointed with the lack of statistical data from our affiliated organisations in AFRICA. We are enlisting the aid of our Office for East and Central Africa in the hope that we will be able to publish more information from these countries in the 1970 report.

The CONSUMER Societies still have the largest percentage of membership accounting for 42.82%, followed by CREDIT Societies with 30.6% and AGRICULTURAL Societies coming third with 14.82%. The remaining 11.76% is divided between Miscellaneous Societies (6.43%) Building and Housing Societies (2.4%) Workers' Productive and Artisan Societies (2.36%) and Fishery Societies (0.57%).

95.06% of the total turnover is accounted for by the CONSUMER and AGRICULTURAL organisations. The AGRICULTURAL section, including Primary and Federal Societies has a total turnover of £32,631,228,000 or 49.12% and the CONSUMER section, including Retail, Wholesale and Federated Societies has a total turnover of £30,519,631,000 or 45.94%. The remaining 4.94% is divided between Workers' Productive and Artisan Societies (2.98%), Fishery Societies (0.87%), Miscellaneous Societies (1.02%) and International Federations (0.07%).

The information we publish relating to the number of EMPLOYEES continues to fluctuate. Several organisations have sent us information for the first time but unfortunately some organisations from whom data have previously been received have not sent any for 1969.

The INSURANCE COMMITTEE of the ICA has been most helpful in the production of INSURANCE statistics. The information for 1969 tabulated on pages 44 and 45 refers to 61 Insurance Societies in membership of the ICA Insurance Committee and the information appearing on page 47 refers to 13 Insurance Societies not in membership of the Insurance Committee but whose national organisations are affiliated to the ICA. No indication is given in TABLE 5 of the work undertaken by the INTERNATIONAL CO-OPERATIVE REINSURANCE BUREAU. This bureau was established in 1949 with its Secretariat at the CIS (United Kingdom) and the success of this organisation may be gauged from the fact that, at the end of March 1971 the total premiums relating to reinsurance business exchanged between 36 Bureau Offices in 23 countries amounted to £5,381,638, the total number of reinsurance contracts being 502.

Note:

The source for the financial conversions from national currencies to Pounds Sterling is the Financial Times, London.

TOTAL TURNOVER - Pages 22-34

Notes:

* - 1968 figures quoted - questionnaires for 1969 not returned

CONSUMER - RETAIL

- a) - included Agricultural turnover
- b) - 1968 figures incorrect - see reference page 3
- c) - 1967 figures

CONSUMER - WHOLESALE

- a) - includes GoC Kaufhauser
- b) - includes 7 regional productive societies
- c) - covers 3 district supply unions
- d) - 1967 figures

CONSUMER FEDERATED

- a) - excludes GoC Kaufhauser
- b) - excludes 7 regional productive societies

WORKERS' PRODUCTIVE AND ARTISANAL

- a) - 1967 figures
- b) - 1967 figures

AGRICULTURAL

- a) - previously included with consumer
- b) - estimated
- c) - of which £21,390,000 in consumer goods.
(£20,122,000).
- d) - £80,000,000 is produce from agricultural settlements. £298,000 turnover from the Audit Union of Arab Workers. £24,000 turnover from "Bahan" Audit Union.
- e) - 1967 figures
- f) - 1968 estimated

FISHERY

- a) - excluding Marketing federations

MEMBERSHIP AS A PERCENTAGE OF POPULATION - Pages 50 and 51

The percentage figures produced on the preceding two pages can only be used as a rough indication of the position of the world co-operative membership figure in relation to population.

In Europe, some countries with large agricultural co-operatives include in their membership figures farmers who are members of more than one agricultural society. This will enhance the membership figures of that country thus overstating the percentage figure of the total population.

From Asia and Africa the data received are often very limited and the countries may well have a much better percentage of members in relation to population than our figures indicate.
