

INTERNATIONAL COOPERATIVE ALLIANCE

FOREWORD

The production of this Calendar stems from a Conference held in September 1965 in Denmark. This Conference was called by the Danish Government and the Central Committee of the Danish Cooperative Movement and participants were invited from a number of countries involved in cooperative technical assistance to developing countries, on the basis of one Government representative and one representative of the national cooperative movement. In addition, international organisations were represented - the International Cooperative Alliance, the I.L.O., the F.A.O. and O.E.C.D.

The Conference agreed that the I.C.A. could usefully compile a Calendar of seminars to be held in 1966, together with details of new or continuing projects. It was felt that this would provide a useful service and help to eliminate overlap in this field.

This Calendar does not pretend to be comprehensive and the recipients may well know of information which is not included, and which usefully should be so. In this case, the I.C.A. will be grateful if details of such seminars or projects can be forwarded, for it is the intention to issue supplements to this Calendar from time to time.

This is the first such Calendar to be issued by the I.C.A. and we hope that a Calendar for 1967 can be issued by the beginning of 1967. The I.C.A. will be grateful to receive comments about the form and content of the Calendar in order that it will provide as useful service as possible.

Further copies of the Calendar are available from the I.C.A., price 5s. 0d., including postage.

NOTES

- 1) The Calendar is in two parts. Part I gives details of seminars and conferences planned for 1966 in chronological order, as notified to the I.C.A. Part II gives details of new and continuing projects of a cooperative character which will be taking place in 1966. Details are given alphabetically by recipient countries.
- 2) Details of courses at a number of institutions are not included where these are continuing from previous years without further recruitment. e.g. the University of Marburg's two-year course in German for participants from African countries and the seminar for Latin American Housing Specialists organised by Gesamtverband Gemeinnütziger Wohnungsunternehmen, Köln; or, the courses are arranged from time to time. e.g. The Cooperative College at Sasel, Hamburg, Federal Republic of Germany; or, Institutions will receive students on request for appropriate courses, e.g. L'Ecole Supérieure Internationale de la Coopération, in Paris, for French-speaking students from developing countries.
- 3) It should be borne in mind that a number of countries accept students for courses in cooperative colleges and institutions where the courses are primarily designed for personnel of the national movement concerned. This is the case in Czechoslovakia, Federal Republic of Germany, France, Poland and the U.S.S.R. These courses are too numerous to list in such a Calendar and applications should be made to the national cooperative movement concerned, or the I.C.A., for further information.

January, 1966.

International Cooperative Alliance, London.

-	Publication of Glossary of Cooperative Terms, in English, French and German, to be published by the International Cooperative Alliance in 1966.	I.C.A.

NOTE:

Technical Assistance by some countries takes the form of training personnel for work in the developing countries. The U.S.A. and the Federal Republic of Germany are examples where cooperative organisations are responsible for planning a detailed course for persons wishing to work overseas in developing countries. In the U.S.A., the Cooperative League of the U.S.A. conducts such courses, and, in the Federal Republic of Germany, the training is under the auspices of the "Freier Ausschuss der Deutschen Genossenschaftsverbände". On completion of the course, persons may then be employed by their Governments, International Agencies, or national cooperative organisations.

January 1966.
