INTERNATIONAL CO-OPERATIVE ALLIANCE

1969

ICA 00235

INTERNATIONAL COOPERATIVE ALLIANCE

F O R E W O R D

This is the fourth issue of a Calendar of Technical Assistance for Cooperatives. The first Calendar was issued in January, 1966 and stemmed from a Conference held in September, 1965 in Denmark. This Conference was called by the Danish Government and the Central Committee of the Danish Cooperative Movement and participants were invited from a number of countries involved in cooperative technical assistance to developing countries, on the basis of one Government representative and one representative of the national cooperative movement. In addition, international organisations were represented - the International Cooperative Alliance, the ILO, the FAO and OECD.

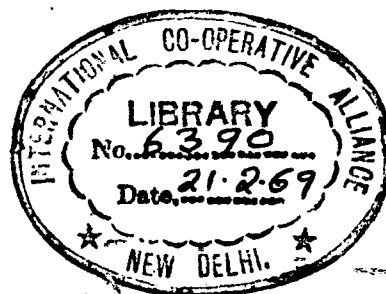

The Conference agreed that the ICA could usefully compile an annual Calendar of seminars, together with details of new or continuing projects. It was felt that this would provide a useful service and help to eliminate overlap in this field.

The second Conference of the same kind was held at Holte, Denmark, in November 1968. On this occasion, the ICA's practice of issuing such Calendars annually was appreciated as very helpful for the purposes mentioned above, and the several recommendations made there about the contents, layout and presentation have been taken into account, so that receivers of the previous issues will now find this one for 1969 improved, not only in appearance, but also in the contents, where selection criteria for participants in seminars and courses have been added in Part I and research schemes in Part II.

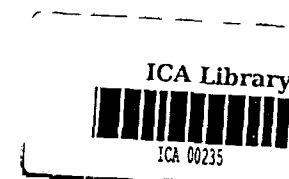

This Calendar does not pretend to be comprehensive, although replies to our questionnaires have been sent in by more organisations than in previous years, and recipients may well know of information which could usefully be included. The ICA would be grateful to receive details of seminars or projects for inclusion in any supplement which may be issued later in 1969, or for publication in the ICA's bulletin "Cooperative News Service", through which efforts will be made to keep the Calendar up-to-date throughout the year.

Further copies of this Calendar are available from the ICA, 11 Upper Grosvenor Street, London, W.1., W 1 X 9 P A price: 10s. Od., including postage.

ICA

N O T E S

(1) The Calendar is in two parts. Part I gives details of seminars and conferences planned for 1969 in chronological order, as notified to the ICA. Part II gives details of new and continuing projects of a cooperative character which will be taking place in 1969. Details are given alphabetically by recipient countries.

(2) Details of courses at a number of Institutions are not included where these are continuing from previous years without further recruitment, or where Institutions will receive students on request for appropriate courses.

(3) It should be borne in mind that a number of countries accept students for courses in cooperative colleges and institutions where the courses are primarily designed for personnel of the national movement concerned. These courses are too numerous to list in such a Calendar and applications should be made to the national cooperative movement concerned, or the ICA, for further information.

(4) Technical Assistance by some countries takes the form of training personnel of their own cooperative movements for work in the developing countries as experts and advisers.

January 1969

International Cooperative Alliance,  
London.

I M P O R T A N T!

-----

1. Please help the I.C.A. to make this Calendar more comprehensive and up-to-date:

If you find that any of the seminars, courses or other technical assistance projects planned by your Organisation for cooperatives in the developing countries for 1969 have not been included in this issue, kindly send the appropriate details to the I.C.A. Headquarters in London without delay for publication (as explained in the Foreword, Page 1).

2. Towards the end of 1969, please, try to remember the 10th December i.e. the date by which the I.C.A. will need your information about seminars, courses and other technical assistance projects planned by your Organisation for 1970. This will enable us to include your information in the next issue of the Calendar, which will be published in January 1970.
3. It will greatly facilitate the editor's work and help to avoid inaccuracies, if all the details of your future projects are communicated to the I.C.A. on forms divided in the same way and under the same headings as those used in the Calendar (i.e. seminars and courses - type according to Part I, other technical assistance projects on the model of those in Part II).

4. Your enquiries on any specific projects listed in the Calendar are to be addressed directly to the Sponsoring Organisation concerned, while the I.C.A. would very much appreciate to be notified of any contacts made possible on the basis of the information published in this Calendar.
  
5. Any other enquiries, suggestions, recommendations or addenda concerning the Calendar are to be addressed to the Secretary for Education and Technical Assistance, International Cooperative Alliance, 11 Upper Grosvenor Street, London, W 1 X 9 P A.

P a r t   I I

Details of (a) new and (b) continuing projects of a cooperative character launched in 1968 and/or planned to take place in 1969 (assignment of experts, consultants, advisers, promotional and development schemes, material aid, grants, loans, missions, audits, surveys, legislation services, organisational assistance, joint projects, research schemes etc.)
